

PHYSICS

BOOKS - VGS BRILLIANT PHYSICS (TELUGU ENGLISH)

ACIDS, BASES AND SALTS

2 Reflection And Refraction

1. An object is immersed in a fluid . In order that the object becomes, it should

- A. have refractive index one
- B. absorb all light falling on it
- C. behave as a perfect reflector
- D. have refractive index exactly matching
with that of the surrounding fluid

Answer: D

Watch Video Solution

7 Carbon And Its Compounds

1. The heteroatoms present in $CH_3CH_2 - O - CH_2 - CH_2Cl$ are a) Oxygen, b) Carbon, c) Hydrogen, d) Chlorine

A. a and b

B. b and c

C. c and d

D. a and d

Answer: D
