

BIOLOGY

BOOKS - SURA BIOLOGY (TAMIL ENGLISH)

HEALTH AND HYGIENE

Example

1. Our body needs ___ for muscle-building.

A. Carbohydrate

B. Fat

C. Protein

D. Water

Answer:

Watch Video Solution

2. Scurvy is caused due to to deficiency of ____.

A. VitaminA

B. VitaminB

C. Vitamin C

D. Vitamin D

Answer:

Watch Video Solution

3. Calcium is an example of a ____.

A. Carbohydrate

B. Fat

C. Protein

D. Minerals

Answer:

Watch Video Solution

4. We should include fruits and vegetables in our diet,because_____.

A. They are the best source of

Carbohydrates

B. They are the best source of Proteins

C. They are rich in minerals and vitamins

D. They have high water content

Answer:

Watch Video Solution

5. Bacteria are very small____microorganism.

Watch Video Solution

6. True or false. There are three man nutrients present in food

Watch Video Solution

7. True or false. Fats are used as an energy store by our body.

Watch Video Solution

8. True or false. All bacteria have flagella.

Watch Video Solution

9. True or false. If false, give the correct statement. Iron helps in the formation of haemoglobin.

Watch Video Solution

10. True or false. Virus can grow and multiply outside host.

Watch Video Solution

11. Fill in the Blanks. Malnutrition leads to ____.

Watch Video Solution

12. Iodine deficiency leads to __ in adults.

Watch Video Solution

13. Vitamin D deficiency causes ____.

Watch Video Solution

14. Typhoid is transmitted due to contamination of ___ and water.

Watch Video Solution

15. Influenza is a ____ disease.

Watch Video Solution

16. Complete the Analogy.

Rice:Carbohydrate::Pulses:____

Watch Video Solution

17. Complete the Analogy. Vitamin D
:Ricket::Vitamin C:_____.

Watch Video Solution

18. Complete the Analogy.
Iodine:Goitre::Iron:_____

Watch Video Solution

19. Complete the Analogy.

Cholera:Bacteria::Smallpox_____

[Watch Video Solution](#)

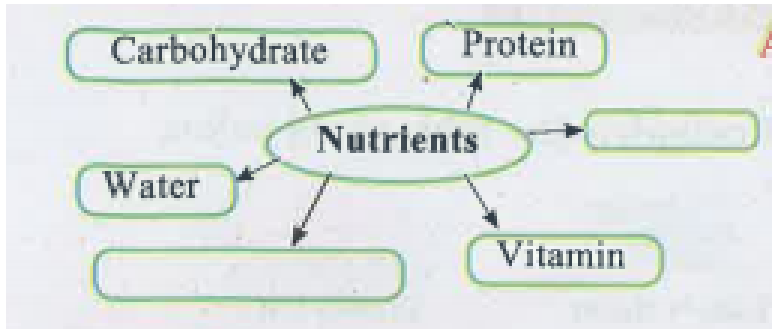

20. Match the following:

- | | | | |
|----|-----------|---|-----------------|
| 1. | Vitamin A | - | Rickets |
| 2. | Vitamin B | - | Night blindness |
| 3. | Vitamin C | - | Sterility |
| 4. | Vitamin D | - | Beri beri |
| 5. | Vitamin E | - | Scurvy |

[Watch Video Solution](#)

21. Complete the Diagram.

Watch Video Solution

22. Write two examples for each of the following:

Food items rich in fat.

Watch Video Solution

23. Write two examples for each of the following:

Vitamin deficiency diseases.

Watch Video Solution

24. Differentiate between carbohydrate and protein.

Watch Video Solution

25. Define the term "Balanced diet".

Watch Video Solution

26. Why should the fruits and vegetables not to be washed after cutting?

Watch Video Solution

27. Name two viral diseases affecting Humans.

Watch Video Solution

28. Write any two bacterial disease.

Watch Video Solution

29. Tabulate the vitamins and corresponding deficiency diseases.

Watch Video Solution

30. Is virus a living thing or non living thing?"

Watch Video Solution

31. ____provides more energy than Carbohydrates.

Watch Video Solution

32. Define hygiene as given by WHO.

Watch Video Solution

33. Among the vitamins which one is the water soluble Vitamin?

A. Vitamin A

B. Vitamin b

C. vitamin D

D. Vitamin E

Answer:

Watch Video Solution

34. Beri Beri is caused due to the deficiency of ____.

A. Vitamin D

B. Vitamin C

C. vitamin A

D. vitamin B

Answer:

Watch Video Solution

35. _____ are required for growth as well as for the regulation of normal body function.

A. Fats

B. Proteins

C. Carbohydrates

D. Minerals

Answer:

Watch Video Solution

36. 80% of the world production of Moringa leaves is in___.

A. China

B. Germany

C. India

D. Canada

Answer:

Watch Video Solution

37. Any human being should take minimum____of water every day.

A. 2litres

B. 3 litres

C. 8 litres

D. 6 litres

Answer:

Watch Video Solution

38. ____ is the bacterial disease and it transmits through contamination of wounds

A. Cholera

B. Tetanus

C. Typhoid

D. Pneumonia

Answer:

Watch Video Solution

39. ____ is an a cellular agent that replicates only inside the cells of the other living organism.

A. Bacteria

B. Protozoa

C. Fungi

D. Virus

Answer:

Watch Video Solution

40. We can obtain Carbohydrates in the form of ____.

Watch Video Solution

41. Vitamins are called as ___ food.

Watch Video Solution

42. The vitamins A,D,E,K are ___ soluble vitamins.

Watch Video Solution

43. _____ is a disease ,due to the deficiency of Vitamin A.

Watch Video Solution

44. Moringa leaves contains powerful anti_____.

Watch Video Solution

45. Skinny appearance and slow body growth are the symptoms of ____disease.

Watch Video Solution

46. ____is strengthening muscles and the cardiovascular system.

Watch Video Solution

47. ____ can kill damage or change the cells and make you sick.

Watch Video Solution

48. Sun screen lotion reduces your skin's ability to produce ____ by up to 95%

Watch Video Solution

49. Goose berries contain nearly___the vitamin C then orange.

Watch Video Solution

50. India has the ___highest number of obese children in the world.

Watch Video Solution

51. True or false .If false gie the correct answer.

Minerals are required for carrying out various biochemical reactions in our body.

Watch Video Solution

52. True or false .If false gie the correct answer.

Night blindness is a disease due to deficiency of Vitamin A.

Watch Video Solution

53. True or false .If false gie the correct answer.

Vitamin D abundantly found in orange and gooseberry.

Watch Video Solution

54. True or false .If false gie the correct answer.

Sun screen lotion reduces ability to produce Vitamin D. It leads to Vitamin D deficiency diseases.

Watch Video Solution

55. True or false .If false gie the correct answer.

Iodine maintains strong bones ,teeth and helps in clotting of blood.

Watch Video Solution

56. True or false .If false gie the correct answer.

Moringa leaves are rich in the minerals potassium,calcium and iron.

Watch Video Solution

57. Complete the Analogy. Polio :Virus::

Tetanus :_____

Watch Video Solution

58. Complete the Analogy. _____:Diarrhoea::

Marasmus: Slow body growth.

Watch Video Solution

59. Complete the Analogy. Synthesis of thyroid hormone: Iodine:: Formation of haemoglobin:_____.

Watch Video Solution

60. Complete the Analogy. Fish oil:Vitamin D:: Vegetable oil,_____

Watch Video Solution

61. Complete the Analogy. Vitamin K:Clotting
of blood:: Vitamin E:_____

Watch Video Solution

62. Complete the Analogy. Protein :Soya bean
::Fat:_____

Watch Video Solution

63. Match the following:

- | | | |
|-----------------|---|---|
| 1. Carbohydrate | - | a) Carrying out various biochemical reactions |
| 2. Proteins | - | b) Regulation of normal body function |
| 3. Vitamins | - | c) energy giving component |
| 4. Minerals | - | d) Body building food |

Watch Video Solution

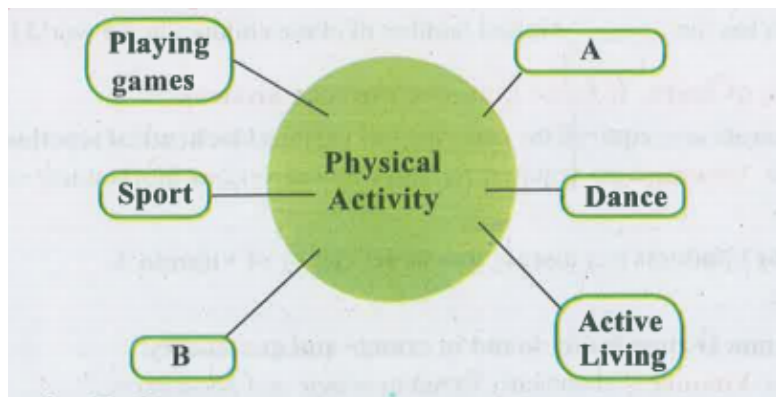

64. Match the following:

- | | | |
|----------------------|---|---|
| 1. Clotting of blood | - | a) Nervous weakness |
| 2. Infertility | - | b) Bleeding gums |
| 3. Scurvy | - | c) Weak, flexible bones |
| 4. Beri beri | - | d) Profuse bleeding after a small injury. |
| 5. Rickets | - | e) Sterility |

Watch Video Solution

65. Complete the diagram.

[Watch Video Solution](#)

66. Define Nutrients.

[Watch Video Solution](#)

67. What are the nutrients obtained from food?

Watch Video Solution

68. List out the types of vitamins.

Watch Video Solution

69. Sun Screen lotion is not good for our health justify.

[Watch Video Solution](#)

70. What are the food items contain minerals?

[Watch Video Solution](#)

71. What are the nutrients present in Moringa leaves?

[Watch Video Solution](#)

72. How does Balanced diet help in our body?

Watch Video Solution

73. Give some mineral deficiency diseases.

Watch Video Solution

74. How does Physical exercise help us?

Watch Video Solution

75. How are the following bacterial diseases transmitted?(i)Cholera (ii)Tetanus (iii) Typhoid (iv)Tuberculosis

Watch Video Solution

76. Name the countries which import Moringa leaves.

Watch Video Solution

77. Define health.

Watch Video Solution

78. Name the four major groups of Microbes.

Watch Video Solution

79. Define Disease.

Watch Video Solution

80. What is a Retrovirus?

Watch Video Solution

81. Fill in the Table:

S. No.	Nutrients	Sources	Functions
1.	Carbohydrates		
2.	Proteins		
3.	Minerals		
4.	Fats		
5.	Vitamins		

Watch Video Solution

1. Rickets is caused due to the deficiency of___.

A. vitamin A

B. vitamin B

C. Vitamin C

D. Vitamin D

Answer:

Watch Video Solution

2. Define deficiency diseases.

Watch Video Solution

3. ____ is highly rich source of protein.

A. Nut

B. Gram

C. Chicken

D. Soya bean

Answer:

Watch Video Solution

4. ____ is a disease, due to the deficiencies of vitamin E.

Watch Video Solution

5. Typhoid is transmitted due to contamination of ____ and water.

[Watch Video Solution](#)

6. Skinny appearance and slow body growth are the symptoms of ___ disease.

[Watch Video Solution](#)

7. True or false .If false gie the correct answer.
Minerals are required for carrying out various biochemical reactions in our body.

[Watch Video Solution](#)

8. True or false. All bacteria have flagella.

Watch Video Solution

9. True or false. If false, give the correct statement. Iron helps in the formation of haemoglobin.

Watch Video Solution

10. Complete the Analogy. Vitamin D :Ricket::Vitamin C:_____.

A.

B. V

C.

D.

Answer:

Watch Video Solution

11. Complete the Analogy. Polio :Virus:: Tetanus

: ____

Watch Video Solution

12. Match the following:

12.	Scurvey	(a)	Even a small cut bleeds profusely
13.	Clotting of blood	(b)	Nervous weakness
14.	Beri Beri	(c)	Bleeding gums

Watch Video Solution

13. Define the term "Balanced diet".

Watch Video Solution

14. Why should the fruits and vegetables not to be washed after cutting?

Watch Video Solution

15. Sun Screen lotion is not good for our health justify.

Watch Video Solution

16. Tabulate the vitamins and corresponding deficiency diseases.

Watch Video Solution

17. Fill in the Table:

S. No.	Nutrients	Sources	Functions
1.	Carbohydrates		
2.	Proteins		
3.	Minerals		
4.	Fats		
5.	Vitamins
