BOOKS - NAVNEET SCIENCE (HINGLISH)

MAKING CONCEPT DIAGRAMS

Heredity And Evolution

1. Draw a concept map based on evidences of evolution . Write examples for any one of the

evidence .

[View Text Solution](#)

Life Processes In Living Organisms Part 1

1. Draw a concept diagram to show anaerobic respiration in different living organisms :

Anaerobic respiration in living organisms/
cells .

[View Text Solution](#)

Life Processes In Living Organisms Part 2

1. Draw a concept map to show different methods of reproduction :

[View Text Solution](#)

2. Draw a concept diagram to show sex determination in human being .

[View Text Solution](#)

Environmental Management

1. Sketch the concept diagram showing important role in environment conservation .

Give one example each of the said roles .

[View Text Solution](#)

2. What are environmental Problems ?

[Watch Video Solution](#)

Animal Classification

1. What is animal classification ?

[View Text Solution](#)

Introduction To Microbiology

1. Complete the following conceptual picture :

[View Text Solution](#)

2. Uses of Xantham gum :

[View Text Solution](#)

3. Environmental Management :

[View Text Solution](#)

Cell Biology And Biotechnology

1. Sketch the concept diagram to show steps in the process of tissue culture .

View Text Solution

2. Complete a concept diagram to show use of biotechnology in human health :

View Text Solution
