ADOLESCENCE AND DRUG/ALCOHOL ABUSE

Check Point 17 1

1. The age period that defines adolescence is

- A. 12-19 years
- B. 10-25 years
- C. 18-35 years
- D. 6-12 years

Answer: A

Watch Video Solution

2. Adolescence is characterised by

- A. synaptic pruning
- B. imaginary audience
- C. egocentrism
- D. All of the above

Answer: D

 Watch Video Solution

3. Acne is a common problem in adolescents. It is caused by

- A. influx of sex hormones
- B. over eating
- C. hypochondria

D. Both a and c

Answer: A

[Watch Video Solution](#)

4. The mood altering drugs are

A. psychotropic drugs

B. psychedelic drugs

C. tranquilisers

D. Both a and c

Answer: A

[Watch Video Solution](#)

5. The examples of minor tranquilisers are

- A. reserpine
- B. benzodiazepines
- C. butyrophenoves
- D. pimozide

Answer: B

 [Watch Video Solution](#)

6. Which one of the following is not an antipsychtic drug?

- A. Teserpine
- B. Clonazepam
- C. Mescaline
- D. Pimozide

Answer: C

 [Watch Video Solution](#)

7. Which one of the an antianxiety as well as sedative drug ?

- A. Psilocybin
- B. Opium
- C. Benzodiazepines
- D. Cocaine

Answer: C

Watch Video Solution

8. The drug that makes a person wakeful alert and a tive is called

- A. sedative
- B. hypnotic
- C. psychedelic

D. stimulant

Answer: D

Watch Video Solution

9. 1,3,7-trimethylxanthine is the chemical name of

A. cocaine

B. coca-alkaloid

C. amphetamine

D. caffeine

Answer: D

Watch Video Solution

10. Cocaine is obtained from

A. Theobroma

B. Thea sinensis

C. Erythroxylum coca

D. Coffee arabica

Answer: C

Watch Video Solution

11. Which drug is found in urine for several days due to its slow metabolism?

A. amphetamine

B. caffeine

C. cocaine

D. codeine

Answer: A

 [Watch Video Solution](#)

12. Antidepressant drug is

- A. tranylcypromine
- B. clorgiline
- C. selegiline
- D. All of these

Answer: D

 [Watch Video Solution](#)

13. Vision producing drugs are called

- A. psychedelics
- B. tranquiliser
- C. sedative

D. psychotropic

Answer: A

Watch Video Solution

14. Charas is obtained from ... of heam plant.

A. roots

B. flowering tops

C. unfertilised inflorescence

D. leaves

Answer: B

Watch Video Solution

15. Drug that is commonly abused by sportpersons is

A. nandrolone

B. methandienone

C. stanozolol

D. All of these

Answer: D

Watch Video Solution

Check Point 17 2

1. The reason of drug addition is

A. peer pressure

B. need of adventure

C. family history

D. All of these

Answer: D

Watch Video Solution

2. A combination of alcohol and antihistamine may leads to

- A. drowsiness
- B. damage of gastric mucosa
- C. cardiovascular effect
- D. None of these

Answer: A

Watch Video Solution

3. Low concentration alcohol is found in

- A. wine

B. beer

C. Vodka

D. Both a and b

Answer: D

[Watch Video Solution](#)

4. In liver, alcohol changes into....by the action of aldehyde dehydrogenase.

A. acetaldehyde

B. ethanol

C. acetic acid

D. ketones

Answer: A

[Watch Video Solution](#)

5. In which of the following diseases, liver becomes enlarged, yellow, greasy and firm ?

- A. Alcoholic fatty liver
- B. Alcoholic hepatitis
- C. Alcoholic cirrhosis
- D. Cholestasis

Answer: A

[Watch Video Solution](#)

6. In alcoholic hepatitis,

- A. hepatocytes degenerate
- B. collagen synthesis occurs
- C. bile flow stops

D. None of these

Answer: A

[Watch Video Solution](#)

7. Neuritis in alcoholic is caused by

- A. inflammation of joints
- B. inflammation of axons and neurons
- C. synaptic pruning
- D. Both a and c

Answer: B

[Watch Video Solution](#)

8. High doses of alcohol may cause

- A. peptic ulcer
- B. gastric carcinoma
- C. gastritis
- D. All of these

Answer: D

 [Watch Video Solution](#)

9. Due to severe alcoholism

- A. diuresis occurs
- B. number of RBC increases
- C. blood sugar level increases
- D. All of the above

Answer: A

 [Watch Video Solution](#)

10. Tobacco is obtained from dry leaves of

A. *Nicotiana tobaccum*

B. *N. rustica*

C. *Atropa belladona*

D. Both a and b

Answer: D

Watch Video Solution

11. Which of the following tobacco constituents is a ciliotoxin?

A. Acrolein

B. Hydrazine

C. Tar

D. Nicotine

Answer: A

Watch Video Solution

12. Smoking may cause

- A. duodenal ulcers
- B. emphysema
- C. pulmonary tuberculosis
- D. All of these

Answer: D

Watch Video Solution

13. The drug used for treating alcoholism is

A. 3-methoxy morphine

B. thalidomide

C. disulfiram

D. Both b and c

Answer: C

Watch Video Solution

14. Thalidomide disaster occurred in

A. 1951 – 52

B. 1958 – 61

C. 1979 – 83

D. 1902 – 2000

Answer: B

Watch Video Solution

15. Neonatal hypoxina in preganant women is caused by

- A. warfarin
- B. methotrexate
- C. cortixosteroid
- D. morphine

Answer: D

Watch Video Solution

**Chepter Exercises Taking It Together Assorted Questions Of The Chapter For
Advanced Level Practice**

1. The king of narcoties is

- A. opium

B. LSD

C. alcohol

D. cocaine

Answer: A

Watch Video Solution

2. Tobacco smoke is rich is

A. tar

B. CO

C. polycyclic aromatic compounds

D. All of the above

Answer: D

Watch Video Solution

3. Alcohol normally consumed is

- A. methanol
- B. proof spirit
- C. ethyl alcohol
- D. All of these

Answer: C

Watch Video Solution

4. Which one is on incorrect match for the percentage of alcohol?

- A. Beer – 4 – 6 %
- B. Rum – 40 – 55 %
- C. Vodka – 40 – 50 %
- D. None of these

Answer: D

Watch Video Solution

5. Which among the following teratogenic drugs causes vaginal carcinoma in teenage females?

A. Tetracyclin

B. Warfarine

C. Stibesterol

D. LSD

Answer: C

Watch Video Solution

6. About 90 % of the absorbed alcohol is eliminated by body through

A. sweat

B. lungs

C. urine

D. metabolic process in liver

Answer: C

 [Watch Video Solution](#)

7. What is the effect of amphetamine + insulin?

A. Decreased insulin

B. Increased insulin

C. Increased sedation

D. Decreased sedation

Answer: A

 [Watch Video Solution](#)

8. methadone is obtained from

- A. ergot
- B. poppy
- C. cautus
- D. cocoa

Answer: B

Watch Video Solution

9. Smokers methabolise nicotine to

- A. homo vanillic acid
- B. theophylline
- C. cotinine

D. All of these

Answer: C

Watch Video Solution

10. Addiction to tobacco is mainly due to the presence of

A. amphetamines

B. Carbon monoxide

C. tar

D. nicotine

Answer: D

Watch Video Solution

11. Absorbed alcohol is methobolised in the liver into acetaldehyde by

A. aldehyde dehydrogenase

B. alcoholic dehydrogenase

C. Both a and b

D. None of these

Answer: C

 [Watch Video Solution](#)

12. Alcohol consumption results in

A. oligouria

B. anuria

C. diuresis

D. None of these

Answer: C

 [Watch Video Solution](#)

13. The generational effect of chronic alcoholic leads to severe disorders

like

- A. liver cirrhosis
- B. foetal alcohol syndrome
- C. Korsakoff's syndrome
- D. All of the above

Answer: D

[Watch Video Solution](#)

14. Flash back phenomenon is associated with the use of drug

- A. LSD
- B. psilocybin
- C. Cannabis

D. All of these

Answer: A

[Watch Video Solution](#)

15. Oxidation process of alcohol in body is carried out mainly by

A. limbs

B. brain

C. kidneys

D. liver

Answer: D

[Watch Video Solution](#)

16. The continuous and excessive intake of alcohol causes

- A. Gastritis
- B. Fatty liver syndrome
- C. Cirrhosis
- D. All of these

Answer: D

 [Watch Video Solution](#)

17. Which among the following particulate constituents of tobacco impairs haemoglobin functioning?

- A. Tar
- B. Nicotine
- C. Phenol
- D. Cresol

Answer: A

 [Watch Video Solution](#)

18. The fruit under the brand name 'Bardez' is prepared from

- A. rice
- B. brandy
- C. grapes
- D. cashew apple

Answer: D

 [Watch Video Solution](#)

19. World Health Day is observed on

- A. 5th January
- B. 27th December
- C. 7th April

D. 31st August

Answer: C

Watch Video Solution

20. Barbiturates is a/an

A. apiate

B. stimulant

C. sedative

D. hallucinogenic

Answer: C

Watch Video Solution

21. Hot shot' relates to..... Of abusive drugs.

- A. injection
- B. inhalation
- C. drinking
- D. shooting

Answer: A

 [Watch Video Solution](#)

22. Leaves of coca bush give

- A. LSD
- B. cocaine
- C. heroin
- D. All of these

Answer: B

 [Watch Video Solution](#)

23. Delta 9-tetrahydrocannabinol is extracted from

- A. Papaver
- B. Cannabis
- C. Ergot
- D. Erythoxylum

Answer: B

[Watch Video Solution](#)

24. 31st May is

- A. Red Cross Day
- B. No Tobacco Day
- C. World Health Day

D. No Drugs Day

Answer: B

[Watch Video Solution](#)

25. The initial stage of the drug addiction called:

A. tolerance

B. habituation

C. sleep

D. dependence

Answer: B

[Watch Video Solution](#)

26. Which is not an opiate?

A. morphine

B. Amphetamine

C. Pethidine

D. Heroin

Answer: B

[Watch Video Solution](#)

27. Benzedrine, dexdrine and methodrine are..... Drugs.

A. psychedelics

B. depressants

C. stimulants

D. opiates

Answer: C

[Watch Video Solution](#)

28. Cocaine is a crystalline alkaloid extracted from the leaves of Plant.

- A. Cinchona
- B. Cannabis sativa
- C. Erythroxylum cocca
- D. Cactus

Answer: C

[Watch Video Solution](#)

29. Optium, morphine, heroin, pethidine and methadone are collectively called as

- A. tranquilisers
- B. stimulants
- C. hallucinogens

D. opiate narcotics

Answer: D

Watch Video Solution

30. All of these are hallucinogens except

A. Cannabis

B. LSD

C. Ergot

D. Amphetamine

Answer: D

Watch Video Solution

31. Effect of the combination of benzodiazepines and barbiturates is

- A. hypertension
- B. drowsiness
- C. impaired judgement
- D. increased sedation

Answer: D

 [Watch Video Solution](#)

32. Charas is a product of

- A. Cannabis indica
- B. Connabis sativa
- C. Cannabis indica
- D. None of these

Answer: B

 [Watch Video Solution](#)

33. Caffeine, amphetamine and cocaine are

- A. nerve depressants
- B. nerve initiators
- C. nerve stimulants
- D. nerve impulse initiators

Answer: C

Watch Video Solution

34. Speed ball is a mixture of

- A. nicotine + cocaine
- B. cocaine + heroin
- C. heroin + hashish

D. hashish + afeem

Answer: A

[Watch Video Solution](#)

35. Psilocybin is obtained from

- A. dried tops of plant
- B. dried leaves of plant
- C. dried seeds of plant
- D. fruiting bodies of plant

Answer: D

[Watch Video Solution](#)

36. Psilocybin, mescline and LSD can be kept under

A. hallucinogenic drug

B. opiate drug

C. stimulants

D. All of these

Answer: A

Watch Video Solution

37. Anaemia in alcoholism may be due to deficiency of

A. vitmin-H

B. vitamin- B_{12}

C. folic acid and vitamin – B_{12}

D. vitamin-C

Answer: C

Watch Video Solution

38. Phocomelia in humans is caused by

- A. stilbesterol
- B. warfarin
- C. thalidomide
- D. morphine

Answer: C

Watch Video Solution

39. In chronic alcoholism, the liver is damaged due to

- A. liver destruction
- B. degradation of metabolites
- C. more urea formation

D. deposition of fats

Answer: D

[Watch Video Solution](#)

40. Marijuana is extracted from

A. deried flowers of hemp from

B. ergot fungus

C. roots of hemp plant 0

D. cocoa plant

Answer: A

[Watch Video Solution](#)

41. Which of the following drug gets partly converted to marphine in the body ?

- A. Mescaline
- B. Benzedrine
- C. Psilocybin
- D. Codeine

Answer: D

[Watch Video Solution](#)

42. Which of the following is not a barbiturate drug?

- A. Thiopentone
- B. Secobarbital
- C. Methadone
- D. Methohexitone

Answer: C

[Watch Video Solution](#)

43. Which particulate constituent of tobacco is ganglionic stimulant?

- A. Gresol
- B. Tar
- C. Nicotine
- D. β -anphthlamine

Answer: C

[Watch Video Solution](#)

44. *Smack* is a drug obtained from the

- A. latex of *Papaver somniferum*

B. leaves of *Cannabis sativa*

C. flowers of *Datura pinata*

D. fruits of *Erythroxylum coca*

Answer: A

Watch Video Solution

45. Piaget described the stage of thinking that emerges during adolescence as the

A. sensory motor stage

B. formal operational stage

C. pre operational stage

D. concrete operational stage

Answer: B

Watch Video Solution

46. Beedi is made by

- A. tobacco leaves
- B. leaves of *Thea chinensis*
- C. leaves of tendu, *Diospyros melanaxylon*
- D. leaves of *Ficus elastica*

Answer: C

Watch Video Solution

47. Nerve depressants

- A. increase the nerve impulses
- B. are sedatives only and decrease BP
- C. are sedatives and cause the low blood pressure
- D. are sedatives and tranquilisers both

Answer: D

[Watch Video Solution](#)

48. The body organ markedly affected by alcohol are

- A. skin and eye
- B. skeletal and nervous system
- C. nervous and digestive system
- D. reproductive and circulatory system

Answer: C

[Watch Video Solution](#)

49. Consumption of coffee, i.e. one cup of instant coffee will contribute about 60-100 mg of caffeine, which is a

- A. sedative
- B. antidepressant
- C. stimulant
- D. psychedelic

Answer: C

 [Watch Video Solution](#)

50. Pick out the psychedelic drug amongst the following.

- A. Lysergic acid diethylamide
- B. Barbiturate
- C. Cocaine
- D. Monoamine oxidase

Answer: A

 [Watch Video Solution](#)

51. Narcotic drugs

- A. slow down respiratory activity
- B. constriction of pupil of eye
- C. decrease glandular secretion
- D. All of the above

Answer: D

[Watch Video Solution](#)

52. Impaired memory, lethargy, passivity, acute anxiety, depression and profuse sweating are symptoms associated with

- A. alcoholism
- B. drug addiction
- C. mental illness

D. All of these

Answer: B

[Watch Video Solution](#)

53. During adolescence, the brain may lose many of the connections between neurons by a process called Which lead to more efficient and focused information processing.

A. myelination

B. synapses

C. pruning

D. modularity

Answer: C

[Watch Video Solution](#)

54. A heightened sense of self-consciousness, which can lead a young person to believe that he or she is the focus of everyone's attention, is known as

- A. imaginary audience
- B. interpersonal vanity
- C. personal fable
- D. adolescent egocentrism

Answer: A

[Watch Video Solution](#)

55. Some adolescents become so absorbed in their own unique thoughts and experience that they are special and no one else has ever had these feelings and experiences. This condition is known as

- A. imaginary audience
- B. interpersonal vanity

C. personal fable

D. adolescent egocentrism

Answer: C

Watch Video Solution

56. Which one of the following statement is false?

A. psychoactive drugs have the ability to alter the activity of the nervous system

B. adolescence is marked by accelerated physical growth, development of reproductive organs and changes in functioning of the neuroendocrine system

C. hallucinogen can alter a person's thoughts, feelings and perceptions

D. mescaline is a stimulant

Answer: D

 [Watch Video Solution](#)

57. Withdrawal symptoms of drug addiction are

- A. show during epilepsy
- B. unpleasant symptoms shown due to non-availability of addicted drugs
- C. unpleasant symptoms shown due to alcoholism
- D. unpleasant symptoms shown due to narcotic drugs

Answer: B

 [Watch Video Solution](#)

58. Choose the opiates from the following set of drugs.

- A. Hashish, codeine, pethidine, morphine and methadone
- B. Hashish, codeine, pethidine, morphine and methadone
- C. Codeine, pethidine, methadone, morphine and heroin
- D. Codeine, pethidine, methadone and cocaine

Answer: C

[Watch Video Solution](#)

Medical Entrances Special Format Questions Statement Based Questions

1. Consider the following compounds?

- I. lorazepam
- II. Butobarbitone
- III. Diazepam
- IV. Thiopentone

Which of the following are barbiturates?

- A. Only I
- B. II and III
- C. II and IV
- D. I, II and III

Answer: C

 [Watch Video Solution](#)

2. Consider the given statements

- I. LSD is a crystalline amidated alkaloid obtained from ergot of fungus *Claviceps purpurea*
- II. LSD causes hallucination and brings foetal abnormalities
- III. LSD is a low potency hallucinogen
- IV. LSD is widely used in veterinary medicine to briefly immobilise large animals

Which of the following is correct?

- A. Only I

B. Only II

C. I and II

D. None of these

Answer: C

Watch Video Solution

3. The effects of alcoholism on an individual are

I. number of RBCs becomes increased.

II. Reduces the blood sugar level.

III. Decreases the release of antidiuretic hormone. Itb rgt IV. Increases number WBCs and platelets.

Choose the correct option.

A. II and III

B. II and IV

C. Only I

D. All of these

Answer: A

Watch Video Solution

4. Match the following Columns.

Column I	Column II
A. Psychotropic drug	1. Amphetamines
B. Stimulants	2. LSD
C. Hallucinogens	3. Codeine
D. Opiates	4. Temazepam
E. Sedatives	5. Barbiturate

A. *A B C D E*
1 3 5 2 4

B. *A B C D E*
4 1 2 3 5

C. *A B C D E*
2 3 1 4 5

D. *A B C D E*
5 4 3 1 2

Answer: B

Watch Video Solution

5. Match the following Columns.

Column I	Column II
A. Alcohol	1. Emphysema
B. Nicotine	2. Fatty acid syndrome
C. Thalidomide	3. Phocomelia
D. Smoking	4. Ganglionic stimulant

A. $A \ B \ C \ D$
4 3 1 2

B. $A \ B \ C \ D$
1 3 2 4

C. $A \ B \ C \ D$
2 4 3 1

D. $A \ B \ C \ D$
2 1 3 4

Answer: C

Watch Video Solution

6. Match the following Columns.

Column I	Column II
A. Hashish	1. Dried unfertilised female inflorescence
B. Ganja	2. Dried leaves and flowering shoots
C. Marijuana	3. Resinous exudate from the flowering tops of female plant
D. Bhang	4. Dried flowers and top leaves of female <i>Cannabis</i> plant

A. A B C D

1 2 2 3

B. A B C D

2 1 4 3

C. A B C D

3 1 4 2

D. A B C D

4 3 2 1

Answer: C

7. Assertion LSD and Charas are halucinogenic drugs.

Reason These drugs alter thought, feelings and perceptions.

- A. Both Assertion and Reason are true and Reason is the correct explanation of Assertion
- B. Both Assertion and Reason are true, but Reason is not the correct explanation of Assertion
- C. Assertion is true, but Reason is false
- D. Assertion is false, but Reason is true

Answer: A

[Watch Video Solution](#)

8. Assertion Caffeine is a stimulant.

Reason Barbiturate is a depressant.

- A. Both Assertion and Reason are true and Reason is the correct explanation of Assertion

B. Both Assertion and Reason are true, but Reason is not the correct explanation of Assertion

C. Assertion is true, but Reason is false

D. Assertion is false, but Reason is true

Answer: B

 [Watch Video Solution](#)

9. Assertion Morphine is a derivative of opium.

Reason Smack is more powerful analgesic than morphine.

A. Both Assertion and Reason are true and Reason is the correct explanation of Assertion

B. Both Assertion and Reason are true, but Reason is not the correct explanation of Assertion

C. Assertion is true, but Reason is false

D. Assertion is false, but Reason is true

Answer: B

 [Watch Video Solution](#)

10. Assertion Alcohol is not digested in human body.

Reason Alimentary canal absorbs alcohol directly.

- A. Both Assertion and Reason are true and Reason is the correct explanation of Assertion
- B. Both Assertion and Reason are true, but Reason is not the correct explanation of Assertion
- C. Assertion is true, but Reason is false
- D. Assertion is false, but Reason is true

Answer: A

 [Watch Video Solution](#)

11. Assertion Champagne wines are the product of fermentation.

Reason Rum is an alcoholic distillate from the fermented juice of sugarcane.

- A. Both Assertion and Reason are true and Reason is the correct explanation of Assertion
- B. Both Assertion and Reason are true, but Reason is not the correct explanation of Assertion
- C. Assertion is true, but Reason is false
- D. Assertion is false, but Reason is true

Answer: B

[Watch Video Solution](#)

12. Assertion Alcohol contents of champagne wine is 12 – 16 %

Reason Alcohol contents of rum is 40 – 55 % .

- A. Both Assertion and Reason are true and Reason is the correct explanation of Assertion
- B. Both Assertion and Reason are true, but Reason is not the correct explanation of Assertion
- C. Assertion is true, but Reason is false
- D. Assertion is false, but Reason is true

Answer: B

Watch Video Solution

13. Assertion (A) : Fatty liver syndrome occurs by alcoholism. Reason (R) : Alcoholics have a rate of carcinoma 10 times higher than that expected in the general population.

- A. Both Assertion and Reason are true and Reason is the correct explanation of Assertion

B. Both Assertion and Reason are true, but Reason is not the correct explanation of Assertion

C. Assertion is true, but Reason is false

D. Assertion is false, but Reason is true

Answer: B

 [Watch Video Solution](#)

14. Assertion Nicotine is an alkaloid found in tobacco.

Reason Nicotine is used in the preparation of niacin vitamin.

A. Both Assertion and Reason are true and Reason is the correct explanation of Assertion

B. Both Assertion and Reason are true, but Reason is not the correct explanation of Assertion

C. Assertion is true, but Reason is false

D. Assertion is false, but Reason is true

Answer: B

3. Smack and Crack are produced from

A. Papaver somnifrum and Erythroxyllum coca

B. Erthraxylum coca and Art ropabelladona

C. Cannabis sativa and Atropabelladona

D. Cannabis sativa and Papaver somniferum

Answer: A

Watch Video Solution

4. Which are the following options are correct

1. Heroin-Stimulant

2. Marijuana-Cardiovascular

3. Cocaine-Hallucination

4. Morphine-Sedative

A. I, II and III

B. I, III and IV

C. II, III and IV

D. I, II and IV

Answer: C

Watch Video Solution

5. Which drug pair is incorrect

- A. Papaver somniferum-Marijuana
- B. Cannabis sativa - Marijuana
- C. Erythroxyllum coca-Cocaine
- D. Atropa belladona-Hashish

Answer: D

Watch Video Solution

6. Name the drug which is useful analgesic in patients undergoing surgery

A. Chlorpromazine

B. Barbiturate

C. Amphetamine

D. Morphine

Answer: D

 [Watch Video Solution](#)

7. Heroin is

A. a cannabinoid

B. directly morphine

C. commonly called 'coke' or 'crack'

D. used to treat mental illnesses like depression and insomnia

Answer: B

 [Watch Video Solution](#)

8. Excessive consumption of alcohol results in

- A. fatty liver syndrome
- B. fixity of facial expression
- C. twitching of face
- D. atrophy of cerebral cortex

Answer: A

[Watch Video Solution](#)

9. Which is the particular type of drug that is obtained from the plant whose one flowering branch is shown below?

- A. Depresant
- B. Sctimulant
- C. Pain-killer
- D. Hallucinogen

Answer: D

Watch Video Solution

10. Which is a sedative drug that gives feeling of calmness, relaxation and drowsiness

- A. Heroin
- B. Cocaine
- C. Barbiturate
- D. Opium

Answer: C

[Watch Video Solution](#)

11. Consumption of alcohol leads to

- A. acetaldehyde accumulation in liver
- B. fat synthesis in liver
- C. lowering of blood glucose level
- D. All of the above

Answer: D

[Watch Video Solution](#)

12. Addiction to tobacco is caused by

- A. cocaine
- B. nicotine
- C. caffeine
- D. histamine

Answer: B

[Watch Video Solution](#)

13. The drug that interferes with transport of neurotransmitter dopamine is

A. cocaine

B. marijuana

C. charas

D. heroin

Answer: A

 [Watch Video Solution](#)

14. Identify the molecules A and B shown below and select the right option giving their source and use

A.

Molecule	Source	Use
Cocaine	Erythroxylum coca	Accelerates the transport of

B.

Molecule	Source	Use
Heroin	Cannabis sativa	Depressant and slow down body functions

C.

Molecule	Source	Use
Cannabinoid	Atropa belladonna	Produces hallucination

D.

Molecule	Source	Use
Morphine	Papaver somniferum	Sedative and pain killer

Answer: D

Watch Video Solution

15. After drinkin alcohol, a person walks clumsily because, the alcohol affects his

A. cerebellum

B. cerebrum

C. medulla oblongata

D. spinal cord

Answer: A

Watch Video Solution

16. Connabis sativa is the source of
