CONCEPT OF CONGRUENCY

Example

1. Write what does congruency mean.

Watch Video Solution

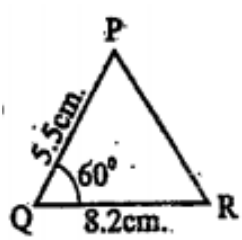
2. Write down the conditions of congruency of two triangles.

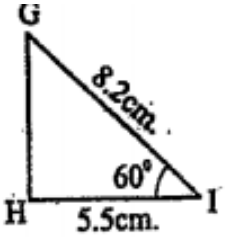
Watch Video Solution

3. Explain with the figure whether angle-angle-angle can be a condition for congruency of two triangles.

Watch Video Solution

4. Let's explain with conditions of congruency whether the following pair of triangle each cases are congruent or not.

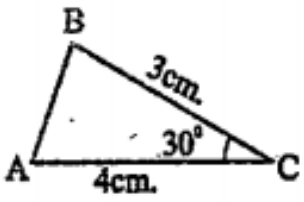


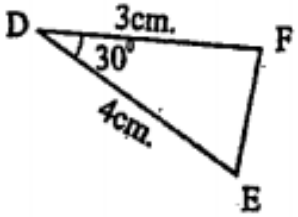


Watch Video Solution

5. Let's explain with conditions of congruency whether the following pair of triangle each

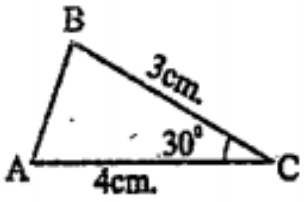
cases are congruent or not.

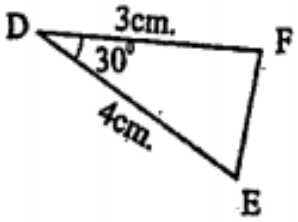




Watch Video Solution

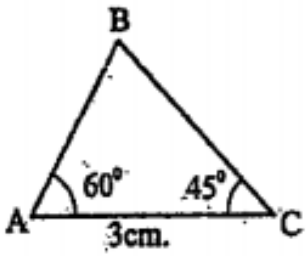
6. Let's explain with conditions of congruency whether the following pair of triangle each cases are congruent or not.

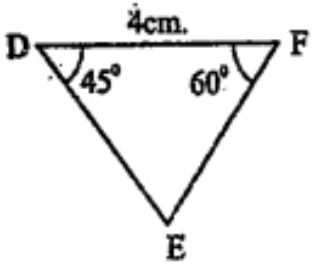




Watch Video Solution

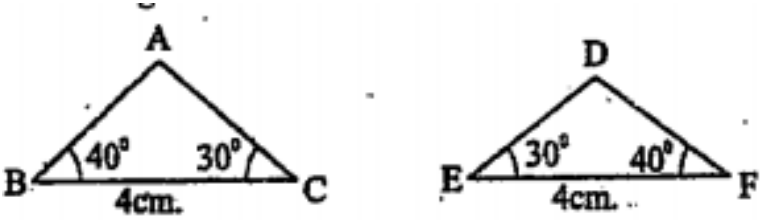
7. Let's explain with conditions of congruency whether the following pair of triangle each cases are congruent or not.





Watch Video Solution

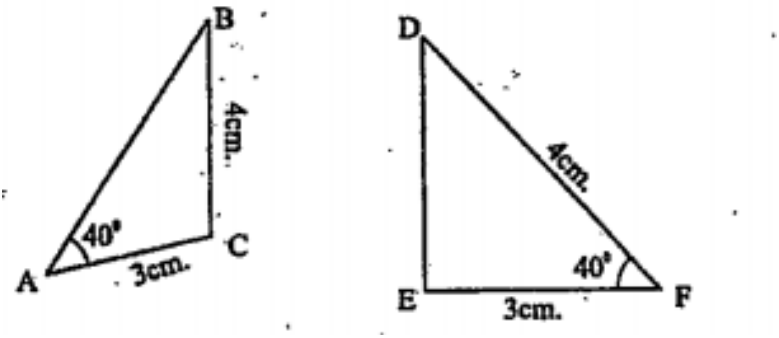
8. Let's explain with conditions of congruency whether the following pair of triangle each cases are congruent or not.



Watch Video Solution

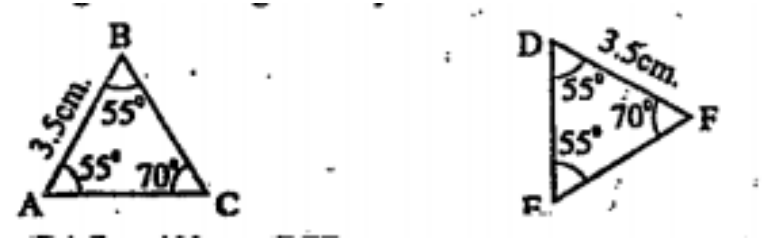
9. Let's explain with conditions of congruency whether the following pair of triangle each

cases are congruent or not.



Watch Video Solution

10. Let's explain with conditions of congruency whether the following pair of triangle each cases are congruent or not.



Watch Video Solution
