

# PHYSICS

**BOOKS - VK GLOBAL PUBLICATION**

**PHYSICS (HINGLISH)**

**MANAGEMENT OF NATURAL  
RESOURCES**

**Ncert Intext Questions**

1. What changes can you make in your habits to become more environment friendly ?

[View Text Solution](#)

2. What would be the advantage of exploiting resources with short - term aims ?

[View Text Solution](#)

3. How would be these advantages differ from the advantage of using a long - term perspective in managing our resources ?

[View Text Solution](#)

4. Why do you think there should be equitable distribution of resources ? What forces would be working against an equitable distribution of our resources ?

[View Text Solution](#)

5. Why should we conserve forests and wildlife ?

[View Text Solution](#)

6. Suggest approaches towards the conservation of forests.

[View Text Solution](#)

7. Find out about the traditional systems of water harvesting / management in your region.

[View Text Solution](#)

8. Compare the above system with the probable systems in hilly / mountainous areas or plains or plateau regions.

[View Text Solution](#)

9. Find out the source of water in your region/locality . Is water from this source available to all people living in that area ?

[View Text Solution](#)

## Ncert Exercises

1. What changes would you suggest in your home in order to be environment frindly?

[View Text Solution](#)

2. Can you suggest some changes in your school which would make it environment friendly

[View Text Solution](#)

3. We saw in this chapter that there are four main stakeholders when it comes to forests and wildlife. Which among these should have the authority to decide the management of forest produce ? Why do you think so ?

[View Text Solution](#)

4. How can you say that an individual can contribute or make a difference to the management of

- (i) Forests and wildlife,
- (ii) Water resources , and
- (iii) Coal and petroleum ?

[View Text Solution](#)

5. What can you as an individual do to reduce your consumption of the various natural resources ?

[View Text Solution](#)

6. List five things you have done over the last one week to :

(i) conserve our natural resources.

(ii) Increase the pressure on our natural resources.

[View Text Solution](#)

7. On the basis of the issues raised in this chapter , what changes would you incorporate in your lifestyle in a move towards a sustainable use of our resources ?

[View Text Solution](#)

## Very Short Answer Questions

1. What are natural resources ?

**View Text Solution**

**2. Define biodiversity .**

**View Text Solution**

**3. Why maintaining a biodiversity is important  
?**

**View Text Solution**

4. List any two industries based on forest produce.

**View Text Solution**

5. A person lives near a forest . Make a list of four items which he can get from the forest to meet his daily needs.

**View Text Solution**

6. Name the award given in the memory of Amrita Devi Bishnoi.

[View Text Solution](#)

7. Name the prominent ecologist who is responsible for Chipko movement.

[View Text Solution](#)

8. Give one criticism about large dams.

[View Text Solution](#)

9. Name the industries which are based on forest products.

[View Text Solution](#)

10. What are biodiversity hotspots ?

[View Text Solution](#)

**11.** Give an example of a community for whom conservation of forest and wildlife has been a religious tenet .

**View Text Solution**

## Short Answer Questions I

**1.** What are natural resources ? State two factors that work against an equitable distribution of these resources.

[View Text Solution](#)

2. What is meant by three types of 'R' (3-R's) to save the environment ? Explain with examples how would you follow the 3- R' s in your school to save the environment.

[View Text Solution](#)

3. prepare a list of five items that you use daily in the school. Identify from the list such items that can be recycled.

[View Text Solution](#)

4. "the prejudice against the traditional use of forest areas have no basis".explain.

[View Text Solution](#)

5. what legislative measures are taken in india to to conserve wildlife?

[View Text Solution](#)

6. mention two ways in which water harvesting can be undertaken.

**View Text Solution**

7. What is the impact of excessive irrigation and intensification of agriculture ?

**View Text Solution**

**8.** What measures would you take to conserve electricity in your house ?

**View Text Solution**

**9.** What is Narmada Bachao Andolan ?

**View Text Solution**

**10.** (a) Why do we need to manage our resources carefully ?

(b) Why management of natural resources requires a long term perspective ?

[View Text Solution](#)

11. Name any two endangered plant and animal species .

[View Text Solution](#)

12. Name the river which the following dams are associated .

(i) Tehri dam (ii) Sardar Sarovar dam.

[View Text Solution](#)

**13.** Although coal and petroleum are produced by degradation of biomass, yet we need conserve them. Why?

[View Text Solution](#)

**14.** List two problems that may arise by planting trees of single variety over vast

tracts of a forest.

[View Text Solution](#)

**15.** What is water harvesting ? How can this technique help in the conservation of water ?

[View Text Solution](#)

**16.** List two advantages associated with water harvesting at the community level.

[View Text Solution](#)

**17.** List any two advantages associated with water stored in the ground.

**View Text Solution**

**18.** What is meant by sustainable management "? Why is reuse considered better than recycling ?

**View Text Solution**

## Short Answer Questions li

1. Distinguish between renewable and non renewable sources of energy.

[View Text Solution](#)

2. Choose the renewable sources of energy from the following list : Coal , biogas , sun natural gas

[View Text Solution](#)

3. Why are forests considered biodiversity hot spots '? List two ways in which an individual can contribute effectively to the management of forests and wildlife.

[View Text Solution](#)

4. List measures that can be taken to conserve forests .

[View Text Solution](#)

5. Why is replenishment of forest necessary ?

State four reasons.

[View Text Solution](#)

6. Every one of us can do something to reduce our personal consumption of various natural resources. List four such activities based on 3 - R approach .

[View Text Solution](#)

7. Explain giving example where active involvement of local people lead to efficient management of forest.

[View Text Solution](#)

8. What are the cause of pollution of river Ganga ?

[View Text Solution](#)

9. List two main causes of the pollution of water of the river Ganga . State how pollution and contamination of river water prove harmful for the health of the people of neighbouring areas.

[View Text Solution](#)

10. Why must we conserve our forests ? List any two causes for deforestation taking place.

[View Text Solution](#)

**11.** List any four measures for conserving forests.

**View Text Solution**

**12.** Explain the role of forests in conserving the environment . How do the forests get depleted ? What are its consequences ?

**View Text Solution**

13. Suggest a few measures for controlling carbon dioxide levels in the atmosphere.

 [View Text Solution](#)

14. Locate and name the water reservoirs in Figure (a) and (b).

(b) Which has an advantage over the other and why?

Fig. (a)

Fig. (b)

 [View Text Solution](#)

**15.** List four stakeholders which may be helpful in the conservation of forests.

**View Text Solution**

**16.** List any four changes you would like to incorporate in your lifestyle in a move towards a sustainable use of available resources in our country .

**View Text Solution**

17. In a village in Karnataka , people started cultivating crops all around a lake which was always filled with water . They added fertilisers to their field in order to enhance the yield . Soon they discovered that the water body was completely covered with green floating plants and fishes started dying in large numbers. Analyse the situation and give reasons for excessive growth of plants and death of fish in the lake.

[View Text Solution](#)

18. We often observe domestic waste decomposing in the bylanes of our home . List four ways to make the residents aware that the improper disposal of wastes is harmful to the environment and make the residents aware that the improper disposal of wastes is harmful to the environment and also for their own health.

[View Text Solution](#)

**19.** Why is sustainable management of natural resources necessary ? Out of the two - reuse and recycle - which , in your opinion , is better to practise ? Give reason.

**View Text Solution**

**20.** List any four advantages of water harvesting.

**View Text Solution**

21. What was Chipko Andolan "? How did this Andolan ultimately benefit the local people and the environment ?

[View Text Solution](#)

## Long Answer Questions

1. Prepare a list of five activities that you perform daily in which natural resources can

be conserved or energy utilisation can be minimised.

[View Text Solution](#)

2. What is the importance of forest as a resource ?

[View Text Solution](#)

3. Suggest a few useful ways of utilising waste water .

[View Text Solution](#)

4. Explain some harmful effects of agricultural practices on the environment.

[View Text Solution](#)

## Hots Higher Order Thinking Skills

1. What is the slogan of chipko moment ?

[View Text Solution](#)

2. List any four changes you would like to incorporate in your lifestyle in a move towards a sustainable use of available resources in our country .

[View Text Solution](#)

3. Prejudice against traditional use of forest areas has no basis. Explain giving an example

[View Text Solution](#)

4. Why are local need and local knowledge of forest dwellers important for maintaining forests ?

[View Text Solution](#)

5. Is water conservation necessary ? Given reasons .

[View Text Solution](#)

6. Why are the arabari forests of bengal known to be good example of converted forests ?

[View Text Solution](#)

7. "reuse is better than recycling of materials". Given reasons to justify this statements .

[View Text Solution](#)
