

BIOLOGY

NCERT - NCERT Biology(Telugu)

THE WORLD OF MICRO ORGANISMS

Example

1. Viruses are interlinked between non-living and living things.

Comment it.

 Watch Video Solution

2. Name two diseases caused by Mycoplasmas.

 Watch Video Solution

[Watch Video Solution](#)

3. What type of micro organisms we can observe in pond water?

 [Watch Video Solution](#)

4. Whether micro organisms are useful and harmful. How explain.

 [Watch Video Solution](#)

5. Why the cooked food spill soon but not uncooked food. Give your reasons.

 [Watch Video Solution](#)

6. How are the human actions causing the death of useful bacteria and fungi? What will happen if it continuous?

 [Watch Video Solution](#)

7. What are the types in micro organisms?

 [Watch Video Solution](#)

8. Where can we find bacteria?

 [Watch Video Solution](#)

9. What questions would you like to ask your teacher to know different shapes of bacteria?

 [Watch Video Solution](#)

 [Watch Video Solution](#)

10. What would happen if you add butter milk to Chilled milk

 [Watch Video Solution](#)

11. What would happen if you add butter milk to hot milk

 [Watch Video Solution](#)

12. What would happen if you add butter milk to hot milk

 [Watch Video Solution](#)

13. Soil is highly rich of micro organisms. Do you support this statement?

[Watch Video Solution](#)

14. What questions that you ask your teacher to know more about virus?

[Watch Video Solution](#)

15. Viruses are interlinked between non-living and living things. Comment it.

[Watch Video Solution](#)

16. What procedure did you follow to observe lactobacillus bacterium in the lab?

[Watch Video Solution](#)

17. How do you find the soil micro organisms?

[Watch Video Solution](#)

18. How can you observe Fungi?

[Watch Video Solution](#)

19. Where do you find Fungi?

[Watch Video Solution](#)

20. How can you observe Algae?

[Watch Video Solution](#)

21. How can you observe the Protozoans?

 [Watch Video Solution](#)

22. How do you find the soil micro organisms?

 [Watch Video Solution](#)

23. Visit any bakery near your school with the help of your teacher or parents. Know about preparation of bread and cake and prepare a note on them.

 [Watch Video Solution](#)

24. Collect the information about virus, in internet, or from science magazines.

[Watch Video Solution](#)

25. Collect the informationm about Polio.

[Watch Video Solution](#)

26. Draw the diagrams of Bacteria.

[Watch Video Solution](#)

27. Draw the diagram of Fungi.

[Watch Video Solution](#)

28. Draw the diagram of Protozoan's.

 Watch Video Solution

29. Draw the diagrams of Algae.

 Watch Video Solution

30. Draw the diagram of micro arthropods.

 Watch Video Solution

31. Identify the following pictures.

 Watch Video Solution

32. Name the types of asexual reproduction in the following organisms:

(a) Paramecium

(b) Yeast

 [Watch Video Solution](#)

33. Do you clean your hands with soap before eating, why is it so?

 [Watch Video Solution](#)

34. What are the contributes of Leeuwenhoek to the microbiology?

 [Watch Video Solution](#)

35. Is there any uses from micro organisms ? How will you appreciate them?

 [Watch Video Solution](#)

36. What is the importance of micro arthropods?

 [Watch Video Solution](#)

37. What are the diseases caused by micro arthropods?

 [Watch Video Solution](#)

38. What are the diseases caused by viruses?

 [Watch Video Solution](#)

39. How can you find the virus?

 [Watch Video Solution](#)

40. What are the diseases caused by bacteria?

 [Watch Video Solution](#)

41. What are the diseases caused by protozoans?

 [Watch Video Solution](#)

42. Identify the fungi present in rotten vegetables.

 [Watch Video Solution](#)

43. What are micro organisms?

Watch Video Solution

44. Where can we find micro organisms?

Watch Video Solution

45. Write the names of some groups of micro organisms.

Watch Video Solution

46. What is meant by arthropods?

Watch Video Solution

47. Which of the following sets of diseases is caused by bacteria

 [Watch Video Solution](#)

48. How do you vaccines works in our body?

 [Watch Video Solution](#)

49. What are the differences between Antibiotic and Vaccine?

 [Watch Video Solution](#)

50. Invention of pencillin protected the world form deaths during first world war. Explain.

 [Watch Video Solution](#)

51. What are antibodies? When do they develop? How they help us?

 [Watch Video Solution](#)

52. Which inventions is most important related to micro organisms? Can you explain the reasons, why it is so important?

 [Watch Video Solution](#)

53. Can you give some important key points you noticed that scientists followed in their inventions and discoveries?

 [Watch Video Solution](#)

54. What is Fermentation? What are the uses of it?

[Watch Video Solution](#)

55. What are antibiotics. Give examples.

[Watch Video Solution](#)

56. What is B.T.?

[Watch Video Solution](#)

57. What is Nitrogen fixation? What is its importance?

[Watch Video Solution](#)

58. What are Pathogens? How they enter into our body?

 [Watch Video Solution](#)

59. What are communicable diseases?

 [Watch Video Solution](#)

60. What are 'Vectors'?

 [Watch Video Solution](#)

61. What are communicable diseases?

 [Watch Video Solution](#)

62. How the housefly transmits the diseases.

 [Watch Video Solution](#)

63. Where do you find more number of houseflies? Why?

 [Watch Video Solution](#)

64. What are the uses of preservations of food?

 [Watch Video Solution](#)

65. Give some examples for food preservation.

 [Watch Video Solution](#)

66. What is Pasteurisation?

 [Watch Video Solution](#)

67. What is symbiosis?

Watch Video Solution

68. What is food poisoning?

Watch Video Solution

69. What is Botulism?

Watch Video Solution

70. What is sterilisation process? Where it is used?

Watch Video Solution

71. If there are no micro organisms on the earth, what will happen?

 [Watch Video Solution](#)

72. Which one is better to take antibiotics or vaccines? Why?

 [Watch Video Solution](#)

73. Take three bowls and mark as A,B,C . Pour lukewarm milk in bowl. A hot milk in bowl B, cold milk in bowl C. Add one tea spoon of curd or butter milk in three bowls and stir them slightly. Cover the bowls with lids. Keep the bowls undisturbed for five to six hours. In which bowl milk turned into curd? Give your reasons.

 [Watch Video Solution](#)

74. How do you make a curd from milk?

Watch Video Solution

75. How do you prove that some materials are not decomposed in the soil?

Watch Video Solution

76. How do you find the root nodules bacteria?

Watch Video Solution

77. How do you prove the Fermentation?

Watch Video Solution

78. How do you prove that dough volume is increase in fermentation?

 [Watch Video Solution](#)

79. How the Alexander Flemming discovered Penicillium?

 [Watch Video Solution](#)

80. Collect more information about scientists, who invented and discovered other fact related to Micro organisms. How these discoveries helped mankind? Make a chan presentation and paste it on your classroom wall magazine.

 [Watch Video Solution](#)

81. Make an Album of scientists and their discoveries related to Micro organisms.

 [Watch Video Solution](#)

82. Write some plant diseases, and their pathogens.

 [Watch Video Solution](#)

83. Collect the informationm about Polio.

 [Watch Video Solution](#)

84. Collect the informationm about Polio.

 [Watch Video Solution](#)

85. Write some common diseases caused by micro organisms and their preventive measures.

 [Watch Video Solution](#)

86. What is Pasteurisation?

 [Watch Video Solution](#)

87. Edward Jenne's is collects fluid from cowpox pustle and injects to a eitht year old boy. Then he exposed the boy to smallpox and the boy did not get smallpox. How do you appreciate the during action of Edward Jenner?

 [Watch Video Solution](#)

88. Raheem tells to his neighbours, "Stagnation of sewage in our surroundings is harmful to our health". Do you support this? Why?

Watch Video Solution

89. Jeevan said that "If there are no micro organisms earth will remain with wastes" will you agree this statement, why?

Watch Video Solution

90. Kavitha is suffering form serious illness. Doctor prescribed antibiotics for five days. After three days of usage she stopped taking antibiotics. Is it right or not, discuss.

Watch Video Solution

91. How do you appreciate Dr. Alexander Flemming?

Watch Video Solution

92. Write about Dr. Y. Subha Rao.

Watch Video Solution

93. Write about Dr. Jonas Salk.

Watch Video Solution

94. One medical store owner is giving antibiotics to his customer, who is suffering with fever without doctor's prescription ? But customer's daughter Malathi is telling her father not to take

antibiotics without doctor's prescription. Whom do you support and why ?

 [Watch Video Solution](#)

95. Refrigerator helps us in saving health and money. Can you explain.

 [Watch Video Solution](#)

96. What are the uses of micro organisms in our daily life?

 [Watch Video Solution](#)

97. Why the bread is spongy in nature?

 [Watch Video Solution](#)

98. What will be the reason for preparing Idli and Dosa dough before one day?

 [Watch Video Solution](#)

99. Why are polio drops given to children? What is the use of polio drops?

 [Watch Video Solution](#)

100. How can you prove the Rhizobium Bacteria present in Root Nodules of Leguminosae membrane?

 [Watch Video Solution](#)

101. What disease can be prevented if we can control Mosquitoes or Mosquito bites?

 [Watch Video Solution](#)

102. Which diseases can be controlled by vaccination?

 [Watch Video Solution](#)

103. What are the diseases which are transmitted by contaminated water?

 [Watch Video Solution](#)

104. Can you name some disease which are transmitted by air?

[Watch Video Solution](#)

 [Watch Video Solution](#)

105. Which one is better to take antibiotics or vaccines? Why?

 [Watch Video Solution](#)

106. What are the diseases which are transmitted by contaminated water?

 [Watch Video Solution](#)

107. Prepare different questions to know the importance of vaccines.

 [Watch Video Solution](#)

108. What are antibodies? When do they develop? How they help us?

 [Watch Video Solution](#)

109. Mention different questions to know about antibiotics.

 [Watch Video Solution](#)

110. Ask different questions about the significance of microbes.

 [Watch Video Solution](#)

Exercise

1. Whether micro organisms are useful and harmful. How explain.

[Watch Video Solution](#)

2. Viruses are interlinked between non-living and living things.

Comment it.

[Watch Video Solution](#)

3. What are the types in micro organisms?

[Watch Video Solution](#)

4. Collect the information about virus, in internet, or from science magazines.

 [Watch Video Solution](#)

5. Prepare a model of any microorganism with clay and write the characteristics of the microbe.

 [Watch Video Solution](#)

6. What are the contributes of Leeuwenhoek to the microbiology?

 [Watch Video Solution](#)

7. How are the human actions causing the death of useful bacteria and fungi? What will happen if it continuous?

 [Watch Video Solution](#)

8. Microbiology was born in

A. 1677

B. 1674

C. 1647

D. 1774

Answer:

Watch Video Solution

9. Micro organisms are discovered by

A. Leeuwenhoek

B. Hemming

C. Jonas salk

D. Louis Pasteur

Answer:

 [Watch Video Solution](#)

10. Leeuwenhoek used

- A. Single lens microscope
- B. Compound microscope
- C. Electronic microscope
- D. None

Answer:

 [Watch Video Solution](#)

11. Leeuwenhoek microscope magnify the object

- A. 100 times
- B. 200 times
- C. 300 times
- D. 400 times

Answer:

[Watch Video Solution](#)

12. Leeuwenhoek used

- A. Viruses
- B. Animalcules
- C. Bacteria

D. Protozoans.

Answer:

 [Watch Video Solution](#)

13. Pencillium is a

A. Algae

B. Fungi

C. Bacteria

D. Protozoans.

Answer:

 [Watch Video Solution](#)

14. How do you vaccines works in our body?

 [Watch Video Solution](#)

15. Raheem tells to his neighbours, "Stagnation of sewage in our surroundings is harmful to our health". Do you support this? Why?

 [Watch Video Solution](#)

16. Take three bowls and mark as A,B,C . Pour lukewarm milk in bowl. A hot milk in bowl B, cold milk in bowl C. Add one tea spoon of curd or butter milk in three bowls and stir them slightly. Cover the bowls with lids. Keep the bowls undisturbed for five to six hours. In which bowl milk turned into curd? Give your reasons.

 [Watch Video Solution](#)

17. Collect more information about scientists, who invented and discovered other fact related to Micro organisms. How these discoveries helped mankind? Make a chan presentation and paste it on your classroom wall magazine.

 [Watch Video Solution](#)

18. How do you appreciate Dr. Alexander Flemming?

 [Watch Video Solution](#)

19. What are the precautions to eradicate Malaria?

 [Watch Video Solution](#)

20. Kavitha is suffering form serious illness. Doctor prescribed antibiotics for five days. After three days of usage she stopped taking antibiotics. Is it right or not, discuss.

[Watch Video Solution](#)

21. Curd has Lactobacillus, it is a

A. Bacteria

B. Fungi

C. Algae

D. Virus

Answer:

[Watch Video Solution](#)

22. Product of the fermentation

- A. Sugar
- B. Alcohol
- C. Yeast
- D. Starch

Answer:

Watch Video Solution

23. Bacterial killing chemicals are

- A. Fungus
- B. Antibiotics
- C. Vaccine

D. B.T.

Answer:

 [Watch Video Solution](#)

24. Polio Vaccine was discovered by

A. Subba Rao

B. Sabin

C. Janner

D. Pasteur

Answer:

 [Watch Video Solution](#)

25. Write some common diseases caused by micro organisms and their preventive measures.

A. Vectors

B. Reservoirs

C. Pathogens

D. Host

Answer:

Watch Video Solution

26. Non-decomposed material is

A. Polythene

B. Leaves

C. Paper

D. Biological waste

Answer:

 [Watch Video Solution](#)

27. Tuberculosis is caused by

A. Virus

B. Bacteria

C. Fungi

D. Protozoans.

Answer:

 [Watch Video Solution](#)

28. Cholera transmitted through

- A. Air
- B. Contaminated water
- C. Mosquitoes
- D. Vectors

Answer:

Watch Video Solution

29. Tobacco mosaic is caused by

- A. Virus
- B. Bacteria
- C. Fungus

D. Algae

Answer:

Watch Video Solution

30. Rabies vaccine was invented by

A. Louis Pasteur

B. Ronald Ross

C. Edward Jenner

D. Flemming

Answer:

Watch Video Solution

31. Viruses are interlinked between non-living and living things.

Comment it.

Watch Video Solution

32. You read about 'Brain dead' in this chapter. What discussions would you like to have when you think so ?

Watch Video Solution

33. Write some common diseases caused by micro organisms and their preventive measures.

Watch Video Solution

34. What type of micro organisms we can observe in pond water?

[Watch Video Solution](#)

35. Whether micro organisms are useful and harmful. How explain.

[Watch Video Solution](#)

36. Why the cooked food spill soon but not uncooked food. Give your reasons.

[Watch Video Solution](#)

37. How are the human actions causing the death of useful bacteria and fungi? What will happen if it continuous?

[Watch Video Solution](#)

38. What questions would you like to ask your teacher to know different shapes of bacteria?

 [Watch Video Solution](#)

39. What would happen if you add butter milk to Chilled milk

 [Watch Video Solution](#)

40. What procedure did you follow to observe lactobacillus bacterium in the lab?

 [Watch Video Solution](#)

41. Visit any bakery near your school with the help of your teacher or parents. Know about preparation of bread and cake and

prepare a note on them.

 [Watch Video Solution](#)

42. What are the uses of micro organisms in our daily life?

 [Watch Video Solution](#)

43. Prepare a model of any microorganism with clay and write the characteristics of the microbe.

 [Watch Video Solution](#)

44. Do you clean your hands with soap before eating, why is it so?

 [Watch Video Solution](#)

45. Get some floating slime from a puddle, pick a very small amount of slime and put it on a slide. Separate out one fiber and look at it through the microscope. Draw the diagram of what you observed.

Watch Video Solution

46. Describe a simple experiment to observe fungi ?

Watch Video Solution

47. Take one or two drops of butter milk on a slide, spread it. Heat the slide slightly on a lamp (3-4 seconds). Add a few drops of crystal violet on it. Leave it for 30 to 60 seconds and wash the slide gently with water. Observe the slide under the compound

Microscope. Draw rough sketches in your note book of what you have observed.

[Watch Video Solution](#)

48. Collect a cup of greenish pond water in our surroundings. Put a drop of water on the slide. Keep it under microscope and observe. What would you find out ? Draw rough

[Watch Video Solution](#)

49. Take any three consecutive even numbers and add them , say ,

$$2 + 4 + 6 = 12, 4 + 6 + 8 = 18, 6 + 8 + 10 = 24, 8 + 10 + 12 = 30$$

and so on.

Is there any pattern can you guess in these sums? What can you conjecture about them?

[Watch Video Solution](#)

[Watch Video Solution](#)

50. How can you observe Fungi?

 [Watch Video Solution](#)

51. Write the experiment of observing soil micro organisms.

 [Watch Video Solution](#)

52. Who discovered the biggest bacteria?

 [Watch Video Solution](#)

53. What are micro organisms?

 [Watch Video Solution](#)

54. Bacteria are

Watch Video Solution

55. Name some bacteria.

Watch Video Solution

56. Name some fungi.

Watch Video Solution

57. Name some protozoans.

Watch Video Solution

58. Name some algae.

 [Watch Video Solution](#)

59. What are the diseases caused by bacteria?

 [Watch Video Solution](#)

60. What are the diseases caused by protozoans?

 [Watch Video Solution](#)

61. What happens if bread is moistened and left for few days?

 [Watch Video Solution](#)

62. Which microorganism is responsible for tobacco mosaic disease in tobacco?

 [Watch Video Solution](#)

63. Can viruses live outside a host?

 [Watch Video Solution](#)

64. What are micro organisms?

 [Watch Video Solution](#)

65. When do we see structures of fungi with our naked eye ?

 [Watch Video Solution](#)

66. What are the ways of finding bacteria ?

[Watch Video Solution](#)

67. Where can we find bacteria?

[Watch Video Solution](#)

68. Do you agree soil contains micro organisms ? Explain..

[Watch Video Solution](#)

69. How do you observe protozoans under the microscope?

[Watch Video Solution](#)

70. Write the procedure for observation of algae under microscope.

 [Watch Video Solution](#)

71. Write about Viruses ?

 [Watch Video Solution](#)

72. Write about Fungi ?

 [Watch Video Solution](#)

73. Write the importance of Microorganisms ?

 [Watch Video Solution](#)

74. Who is the first person to discover unicellular organisms ?

[Watch Video Solution](#)

75. How do you observe paramecium ?

[Watch Video Solution](#)

76. Using various resources such as your school Library or the internet and discussions with your teacher, trace the evolutionary stages of any one animal say horse.

[Watch Video Solution](#)

77. Where are microorganisms present?

[Watch Video Solution](#)

 [Watch Video Solution](#)

78. Write about Viruses ?

 [Watch Video Solution](#)

79. How are bacteria stained for observation under microscope?

 [Watch Video Solution](#)

80. What were the consequences that led to the evolution of Microbiology?

 [Watch Video Solution](#)

81. What are micro arthropods?

[Watch Video Solution](#)

82. Draw a neat diagram of Chlamydomonas.

[Watch Video Solution](#)

83. Write some common diseases caused by micro organisms and their preventive measures.

[Watch Video Solution](#)

84. ____ is a science that was born in 1674 when Anthony Van Leeuwenhoek observed a drop of lake water .

A. Microbiology

B. Biochemistry

C. Biotechnology

D. Animal science

Answer:

Watch Video Solution

85. Leeuwenhoek microscope magnify the object

A. 100

B. 200

C. 300

D. 400

Answer:

Watch Video Solution

86. Anthony Von Leeuwenhoek named small moving organisms as

_____ .

- A. Bacteria
- B. Animalcules
- C. Animals
- D. He didn't name them

Answer:

Watch Video Solution

87. The organisms in our surroundings which we cannot see with our unaided eyes are called -

- A. Animalcules

B. Microorganisms

C. Macro organisms

D. All of these

Answer:

Watch Video Solution

88. Which of the following is a micro arthropod?

A. Cyclops

B. Daphnia

C. Eyelash mite

D. All of these

Answer:

Watch Video Solution

 [Watch Video Solution](#)

89. Which of these is a fungi ?

A. Aspergillus

B. Amoeba

C. Vorticella

D. Coccus

Answer:

 [Watch Video Solution](#)

90. Which of these is a protozoan?

A. Amoeba

B. Vorticella

C. Aspergillus

D. A and B

Answer:

 [Watch Video Solution](#)

91. Coccus is a kind of ____ .

A. Fungi

B. Algae

C. Bacteria

D. Micro arthropod

Answer:

 [Watch Video Solution](#)

92. Bread mould is not due to -

- A. Rhizopus
- B. Lactobacillus
- C. Aspergillus
- D. Pencillium

Answer:

[Watch Video Solution](#)

93. The stain used to observe bacteria is -

- A. Rose green
- B. Janus green
- C. Crystal violet

D. Crystal blue

Answer:

 [Watch Video Solution](#)

94. Fill in the blanks : Curdling of milk in small intestine occurs due to _____.

A. Bacteria

B. Fungi

C. Algae

D. Virus

Answer:

 [Watch Video Solution](#)

95. Disease causing organisms live in some ___ relationship with other bacteria .

A. Parasitic

B. Opportunistic

C. Symbiotic

D. Myophytic

Answer:

Watch Video Solution

96. In the year ___ biggest bacteria was discovered .

A. 1998

B. 1997

C. 1996

D. 2006

Answer:

 [Watch Video Solution](#)

97. Who discovered the biggest bacteria?

A. Heide N. Schulz

B. Robert Hooke

C. Louis Pastuer

D. Watson and crick

Answer:

 [Watch Video Solution](#)

98. The biggest bacteria is -

- A. *Aspergillus cervisea*
- B. *Salmonella typhi*
- C. *Thiomargarita namibiensis*
- D. *Bacillus turengiensis*

Answer:

[Watch Video Solution](#)

99. The bacterium which can be seen with naked eye measures ____

.

- A. 0.75 mm
- B. 0.75 cm

C. 0.75 m

D. 0.75 km

Answer:

 [Watch Video Solution](#)

100. The algae that can be seen with naked eye is -

A. Spirogyra

B. Chara

C. Pencillium

D. Both A and B

Answer:

 [Watch Video Solution](#)

101. What are the diseases caused by micro arthropods?

A. Malaria

B. Scabies

C. Dengue

D. Eyelash mite

Answer:

[Watch Video Solution](#)

102. Minute sized arthropods which are also called joint legged organisms are -

A. Fungi

B. Algae

C. Bacteria

D. Micro arthropods

Answer:

 [Watch Video Solution](#)

103. The top eight inches of soil of one acre area may contain as much as ____ -tons of fungi and bacteria .

A. 5 and half

B. 6 and half

C. 8

D. 100

Answer:

 [Watch Video Solution](#)

104. Which is true

- A. They are microscopic
- B. Non living things when outside body of host
- C. Always require a host for reproduction
- D. All the above

Answer:

[Watch Video Solution](#)

105. What are the diseases caused by viruses?

- A. AIDS
- B. Swine flu

C. Conjunctivitis

D. All the above

Answer:

 [Watch Video Solution](#)

106. ___ are found on your skin, eyelids, bedding, rugs .

A. Algae

B. Micro arthropods

C. Fungi

D. Bacteria

Answer:

 [Watch Video Solution](#)

107. Virus can be viewed with -

- A. Naked eye
- B. Electron microscope
- C. Unaided eye
- D. Compound microscope

Answer:

Watch Video Solution

108. Pond waters are greenish due to growth of -

- A. Fungi
- B. Bacteria
- C. Bacillus

D. Algae

Answer:

 [Watch Video Solution](#)

109. Microbiology was born in

A. 1674

B. 1764

C. 1680

D. 1690

Answer:

 [Watch Video Solution](#)

110. The person who invented single lens powerful microscope was

-

- A. Robert Brown
- B. Robert Hooke
- C. A.V. Leeuwenhoek
- D. Alexander Fleming.

Answer:

Watch Video Solution

111. The vitamin whose content increases following the conversion of milk into curd by lactic acid bacteria is

- A. Penicillium

B. Aspergillus

C. Rhizopus

D. Lactobacillus

Answer:

[Watch Video Solution](#)

112. Scabies disease is caused by -

A. Bacteria

B. Fungi

C. Aspergillus

D. scabies mite (arthropod)

Answer:

 [Watch Video Solution](#)

113. AIDS is due to the presence of -

- A. Bacteria
- B. micro arthropod
- C. Virus
- D. Fungi

Answer:

 [Watch Video Solution](#)

114. The organisms due to which ponds appear green in colour are

-

- A. Bacteria

B. Virus

C. Fungi

D. algae

Answer:

[Watch Video Solution](#)

115. Many skin diseases are caused by -

A. Fungi

B. Bacteria

C. Protozoan

D. Algae

Answer:

[Watch Video Solution](#)

 [Watch Video Solution](#)

116. These microorganisms aid in digestion -

- A. Algae
- B. Fungi
- C. Bacteria
- D. Virus

Answer:

 [Watch Video Solution](#)

117. What type of micro organisms we can observe in pond water?

 [Watch Video Solution](#)

118. Observe some permanent slides of micro organisms in your school lab with the help of Microscope. Draw its picture.

 [Watch Video Solution](#)

119. Do you clean your hands with soap before eating, why is it so?

 [Watch Video Solution](#)

120. How do you vaccines works in our body?

 [Watch Video Solution](#)

121. What are the differences between Antibiotic and Vaccine?

 [Watch Video Solution](#)

122. Invention of penicillin protected the world from deaths during first world war. Explain.

 [Watch Video Solution](#)

123. Take three bowls and mark as A,B,C . Pour lukewarm milk in bowl A, hot milk in bowl B, cold milk in bowl C. Add one tea spoon of curd or butter milk in three bowls and stir them slightly. Cover the bowls with lids. Keep the bowls undisturbed for five to six hours. In which bowl milk turned into curd? Give your reasons.

 [Watch Video Solution](#)

124. There are some families who follow some traditional practices in your village. Visit those families, collect information

about their cultural practices and festivals. Prepare a report on it and display in your wall magazine.

 [Watch Video Solution](#)

125. Make an Album of scientists and their discoveries related to Micro organisms.

 [Watch Video Solution](#)

126. prepare a list of cattle diseases ?

 [Watch Video Solution](#)

127. What is Pasteurisation?

 [Watch Video Solution](#)

128. How do you appreciate Edward Jenner's experiments ?

Watch Video Solution

129. Visit a nearby milk chilling centre. Observe the process and make a note on them.

Watch Video Solution

130. Comment on the following statement. “Prevention is better than cure. It’s better to control the population of mosquitoes than using mosquito nets.”

Watch Video Solution

131. Raheem tells to his neighbours, "Stagnation of sewage in our surroundings is harmful to our health". Do you support this? Why?

 [Watch Video Solution](#)

132. Jeevan said that "If there are no micro organisms earth will remain with wastes" will you agree this statement, why?

 [Watch Video Solution](#)

133. Kavitha is suffering form serious illness. Doctor prescribed antibiotics for five days. After three days of usage she stopped taking antibiotics. Is it right or not, discuss.

 [Watch Video Solution](#)

134. What are the precautions to eradicate Malaria?

 [Watch Video Solution](#)

135. One medical store owner is giving antibiotics to his customer, who is suffering with fever without doctor's prescription ? But customer's daughter Malathi is telling her father not to take antibiotics without doctor's prescription. Whom do you support and why ?

 [Watch Video Solution](#)

136. What change did you observe in the thermometer in the given experiment ?

What result you will get , if you perform this experiment with dry seeds ?

 [Watch Video Solution](#)

137. The teacher said that egg cells are larger than sperm cells.

What is the reason for this ?

 [Watch Video Solution](#)

138. What will be the reason for preparing Idli and Dosa dough before one day?

 [Watch Video Solution](#)

139. What changes do you observe in the dough ?

 [Watch Video Solution](#)

140. What might be the reason when yeast is added with myda dough of one cup. Discuss with your friends and write about it

[Watch Video Solution](#)

141. Take half glass of water in two beakers or bowls separately. Add 5 to 10 spoons of sugar in the water, and add 2 to 3 spoons of yeast in one of the bowls. Close the bowls with lids and keep them in a warm place. After 3 to 4 hours remove the lids and smell.

[Watch Video Solution](#)

142. What differences did you observe between the two bowls of dough ?

[Watch Video Solution](#)

143. What will be the reason for odour in yeast mixed bowls ?

[Watch Video Solution](#)

Watch Video Solution

144. Write the medicinal use of micro organisms.

 [Watch Video Solution](#)

145. Explain the biological phenomenon of Nitrogen fixation in root nodules of legumes.

 [Watch Video Solution](#)

146. What would happen if microorganisms were absent in our surroundings ? What might be present in our surroundings.

 [Watch Video Solution](#)

147. What precautions should we take to prevent mosquito bite ?

Watch Video Solution

148. What disease can be prevented if we can control Mosquitoes or Mosquito bites?

Watch Video Solution

149. Which of the following disease can be prevented by vaccination?

Watch Video Solution

150. What are the diseases which are transmitted by contaminated water?

[Watch Video Solution](#)

151. Can you name some disease which are transmitted by air?

[Watch Video Solution](#)

152. Can we protect ourselves from bacteria and protozoan diseases through vaccination? Discuss In your class.

[Watch Video Solution](#)

153. Discuss in your class about mission Indradhanush.

[Watch Video Solution](#)

154. Which organism converts milk to curd?

Watch Video Solution

155. Name some antibiotics. Why are they used?

Watch Video Solution

156. What are the uses of micro organisms in our daily life?

Watch Video Solution

157. What is fermentation ?

Watch Video Solution

158. Where is fermentation used ?

 [Watch Video Solution](#)

159. Why does the dough rise when yeast is added to it?

 [Watch Video Solution](#)

160. Which gas is produced during fermentation of sugar by yeast cells is

 [Watch Video Solution](#)

161. Who discovered aureomycin?

 [Watch Video Solution](#)

162. Who discovered polio vaccine?

Watch Video Solution

163. Who discovered oral polio vaccine?

Watch Video Solution

164. What are vaccines?

Watch Video Solution

165. What is the importance of vaccination?

Watch Video Solution

166. Which of the following disease can be prevented by vaccination?

 [Watch Video Solution](#)

167. Who gave us the first vaccine?

 [Watch Video Solution](#)

168. Name the nitrogen fixing microorganisms.

 [Watch Video Solution](#)

169. What are Pathogens? How they enter into our body?

 [Watch Video Solution](#)

170. What are communicable diseases?

[Watch Video Solution](#)

171. How do communicable diseases spread?

[Watch Video Solution](#)

172. What are communicable diseases?

[Watch Video Solution](#)

173. What are 'Vectors'?

[Watch Video Solution](#)

174. Which organism is the vector for malaria?

 [Watch Video Solution](#)

175. Where are molasses used?

 [Watch Video Solution](#)

176. What is Botulism?

 [Watch Video Solution](#)

177. What are the preventive measures for tuberculosis?

 [Watch Video Solution](#)

178. Who was the first person to prove that microorganisms can be killed by boiling?

 [Watch Video Solution](#)

179. Name the bacterium present in curd or buttermilk.

 [Watch Video Solution](#)

180. What is the use of lactobacillus bacterium ?

 [Watch Video Solution](#)

181. What is fermentation ?

 [Watch Video Solution](#)

182. What is the use of molasses ? Where is it produced ?

 [Watch Video Solution](#)

183. Name the microorganism from which the antibiotic penicillin is obtained.

 [Watch Video Solution](#)

184. What is the disadvantage in over use or necessary use of antibiotics?

 [Watch Video Solution](#)

185. Who discovered polio vaccine?

[Watch Video Solution](#)

186. Who discovered oral polio vaccine?

[Watch Video Solution](#)

187. What are vaccines?

[Watch Video Solution](#)

188. Who discovered polio vaccine?

[Watch Video Solution](#)

189. Define 'pathogens'.

 [Watch Video Solution](#)

190. What are communicable diseases?

 [Watch Video Solution](#)

191. What are communicable diseases?

 [Watch Video Solution](#)

192. Refrigerator helps us in saving health and money. Can you explain.

 [Watch Video Solution](#)

193. Why is BT called a bio pesticide?

[Watch Video Solution](#)

194. What are Pathogens? How they enter into our body?

[Watch Video Solution](#)

195. How does a disease spread from person to person?

[Watch Video Solution](#)

196. How the housefly transmits the diseases.

[Watch Video Solution](#)

197. What is the mode of transmission of cholera and suggest preventive measures?

 [Watch Video Solution](#)

198. Name some diseases spread by mosquitoes? How can we prevent them?

 [Watch Video Solution](#)

199. What is the importance of food preservation?

 [Watch Video Solution](#)

200. What happens if antibiotics are used excessively?

 [Watch Video Solution](#)

 [Watch Video Solution](#)

201. What is Pasteurization?

 [Watch Video Solution](#)

202. Which one is better to take antibiotics or vaccines? Why?

 [Watch Video Solution](#)

203. What are antibodies? When do they develop? How they help us?

 [Watch Video Solution](#)

204. Write the importance of Microorganisms ?

[Watch Video Solution](#)

205. Mention the microorganisms which are useful in home, industry ?

[Watch Video Solution](#)

206. Explain how soil microbes are helpful to plants and crops ?

[Watch Video Solution](#)

207. What is the advantages in Preserving food items ?

[Watch Video Solution](#)

208. Which inventions is most important related to micro organisms? Can you explain the reasons, why it is so important?

 [Watch Video Solution](#)

209. What are the consequences that led to the discovery of antibiotic pencillin?

 [Watch Video Solution](#)

210. How does a vaccine protect us from diseases?

 [Watch Video Solution](#)

211. What were the consequences that led to the evolution of Microbiology?

[Watch Video Solution](#)

212. Write some plant diseases, and their pathogens.

[Watch Video Solution](#)

213. Mention some microorganisms which cause diseases in human, plants and other animals.

[Watch Video Solution](#)

214. Which diseases are caused by fungi ?

[Watch Video Solution](#)

215. Which plant disease is caused by bacteria ?

- A. red rot of sugarcane
- B. black rot of crucifers
- C. brown rust of wheat
- D. late blight of potato

Answer:

Watch Video Solution

216. Which crop disease is caused by Virus ?

- A. curly top of sugar beets
- B. aster yellows
- C. barley yellow dwarf

D. both A and C

Answer:

 [Watch Video Solution](#)

217. How are most of the plant diseases transmitted ?

 [Watch Video Solution](#)

218. Why is BT called a bio pesticide?

 [Watch Video Solution](#)

219. Which organism converts milk to curd?

A. Lactobacillus

B. Bacillus

C. Coccus

D. Curd itself

Answer:

[Watch Video Solution](#)

220. Curd or buttermilk contains bacterium -

A. Lactobacillus

B. Bacillus

C. Coccus

D. Staphylococcus

Answer:

[Watch Video Solution](#)

 [Watch Video Solution](#)

221. The process of conversion of sugars into Alcohol is known as -

- A. Sponging
- B. Production
- C. Calvin's cycle
- D. Fermentation

Answer:

 [Watch Video Solution](#)

222. When ____ is added to the dough for preparing bread, the dough rises.

- A. Bacteria

B. Yeast

C. Sabu dana

D. Sugar

Answer:

Watch Video Solution

223. Dough raises due to the production of ____ gas on addition of yeast .

A. Carbon dioxide

B. Nitrogen

C. Oxygen

D. Sulphur

Answer:

 [Watch Video Solution](#)

224. During the process of ___ yeast is added .

- A. Sponging
- B. Production
- C. Fermentation
- D. Calvin's cycle

Answer:

 [Watch Video Solution](#)

225. What happens to the dough on addition of yeast?

A. Bubbles of the gas fill the dough

B. Increase its volume

C. Make it spongy in nature.

D. All the above

Answer:

Watch Video Solution

226. Yeast is grown in natural sugars present in grains like -

A. Barley

B. Wheat

C. Rice

D. All the above

Answer:

 [Watch Video Solution](#)

227. The process is used on a large scale in the production of alcohol, wine, beer and acetic acid is -

- A. Sparging
- B. Production
- C. Fermentation
- D. Calvin's cycle

Answer:

 [Watch Video Solution](#)

228. ____ produced in sugar industry is used in the preparation of ethyl alcohol -

- A. Pulp
- B. Sugar
- C. Molasses
- D. Sugar juice

Answer:

[Watch Video Solution](#)

229. Which of the following is an antibiotic?

- A. Penicillin
- B. Tetracycline

C. Streptomycin and erythromycin

D. All the above

Answer:

 [Watch Video Solution](#)

230. Which of the following are bacterial diseases?

A. Typhoid,

B. Gonorrhoea

C. None

D. Both A and B

Answer:

 [Watch Video Solution](#)

231. Infections like Septicemia are prevented by-

- A. Vaccination
- B. Injection
- C. Antibiotic
- D. Sleeping

Answer:

Watch Video Solution

232. Penicillin is derived from

- A. Algae
- B. Fungus
- C. Bacteria

D. Virus

Answer:

 [Watch Video Solution](#)

233. The antibiotic extracted from *Penicillium notatum* is -

A. Streptomycin

B. Aspirin

C. Penicillin

D. Aureomycin

Answer:

 [Watch Video Solution](#)

234. Substances that killed bacteria were coined as antibiotics by -

A. Fleming

B. S. Waksman

C. Hooke

D. Jenner

Answer:

Watch Video Solution

235. Molasses are used in preparation of -

A. Sugar

B. Ethyl alcohol

C. Wine

D. Beer

Answer:

 [Watch Video Solution](#)

236. The discovery of the antibiotic, penicillin was announced in -

A. 1929

B. 1928

C. 1930

D. 1939

Answer:

 [Watch Video Solution](#)

237. In year ____ Dr. Alexander Fleming was awarded the Nobel prize along with other scientists -

A. 1946

B. 1986

C. 1945

D. 1947

Answer:

 [Watch Video Solution](#)

238. Who discovered aureomycin?

A. Dr. Alexander Flemming

B. Dr. Yellapragada Subba Rao

C. Dr. Hooke

D. Dr. Jenner

Answer:

 [Watch Video Solution](#)

239. ____ protects us from getting the diseases over a long period of time .

A. Medicines

B. Vaccinations

C. Injections

D. Antibiotics

Answer:

 [Watch Video Solution](#)

240. Dr. Jonas Salk discovered vaccine for Polio in the year ____ .

- A. 1952
- B. 1950
- C. 1951
- D. 1953

Answer:

Watch Video Solution

241. Who discovered polio vaccine?

- A. Dr.sabin
- B. Dr. Salk

C. Dr. Subba Rao

D. Dr. Fleming

Answer:

 [Watch Video Solution](#)

242. Who discovered oral polio vaccine?

A. Dr. Albert Sabin

B. Dr. Salk

C. Dr. Subba Rao

D. Dr. Flemming

Answer:

 [Watch Video Solution](#)

243. The weakened disease causing micro organisms which are injected into our bodies are called as -

- A. Injection
- B. Vaccine
- C. Syrup
- D. Tablets

Answer:

[Watch Video Solution](#)

244. Who gave us the first vaccine?

- A. Dr. Albert Sabin
- B. Dr. Salk

C. Dr. Edward Jenner

D. Dr. Flemming

Answer:

 [Watch Video Solution](#)

245. Vaccine for Rabies was discovered by -

A. Louis Pasteur

B. Edward Jenner

C. Sabin

D. Salk

Answer:

 [Watch Video Solution](#)

246. The word vaccine comes from 'vacca' which means -

- A. Dog
- B. Cat
- C. Cow
- D. Tiger

Answer:

[Watch Video Solution](#)

247. About 78% of air around us is ____ gas .

- A. Oxygen
- B. Nitrogen
- C. Carbon dioxide

D. Argon

Answer:

 [Watch Video Solution](#)

248. Plants need ____ mainly for synthesizing proteins .

A. Oxygen

B. Nitrogen

C. Carbon dioxide

D. Argon

Answer:

 [Watch Video Solution](#)

249. The micro organisms that help plants to provide nitrogen to the plants -

- A. Rhizobium
- B. Nostoc
- C. Anabaena
- D. All the above

Answer:

Watch Video Solution

250. The organisms which cause diseases in plants and animals are called

- A. Vectors

B. Pathogens

C. Zoocytes

D. Animal cules

Answer:

[Watch Video Solution](#)

251. What are Pathogens? How they enter into our body?

A. Air

B. Water

C. Animals

D. All the above

Answer:

 [Watch Video Solution](#)

252. How do communicable diseases spread?

- A. Healthy person to infected person
- B. Infected person to healthy person
- C. Healthy person to healthy person
- D. Infected person to animals

Answer:

 [Watch Video Solution](#)

253. The person who discovered that female Anopheles mosquitoes are carrier of the causative Microorganism (parasite) for Malaria is -

A. Dr. Salk

B. Dr. Edward Jenner

C. Dr. Flemming

D. Dr. Ronald Ross

Answer:

Watch Video Solution

254. The insects and animals that carry disease causing microorganisms are called -

A. Vectors

B. Pathogens

C. oocytes

D. Animal cules

Answer:

 [Watch Video Solution](#)

255. House flies spread the diseases like -

- A. Typhoid
- B. Cholera
- C. Both A and B
- D. None

Answer:

 [Watch Video Solution](#)

256. Measles and mumps are prevented by ___ vaccine .

A. OPV

B. MMR

C. Polio

D. No vaccine available

Answer:

Watch Video Solution

257. Anthrax is caused due to -

A. Bacteria

B. Virus

C. Algae

D. Fungus

Answer:

 [Watch Video Solution](#)

258. Tikka disease in ground nut is caused by -

A. Bacteria

B. Virus

C. Algae

D. Fungus

Answer:

 [Watch Video Solution](#)

259. Clostridium botulinum causes -

A. Botulism

B. Botulin

C. Fever

D. None

Answer:

Watch Video Solution

260. Which of the following is caused by fungus?

A. Red rot in sugar cane

B. Tikka disease of groundnut

C. Smut disease of rice

D. All the above

Answer:

 [Watch Video Solution](#)

261. Who was the first person to prove that microorganisms can be killed by boiling?

- A. Lazzaro Spallanzani
- B. Louis Pasteur
- C. Edward Jenner
- D. Francois

Answer:

 [Watch Video Solution](#)

262. In pasteurization, milk is heated up to ____ °C .

- A. 15
- B. 70
- C. 100
- D. 27

Answer:

 [Watch Video Solution](#)

Improve Your Learning

1. Which organisms act as an interlink between living and non-living organisms? Why do you think so?

 [Watch Video Solution](#)

2. Write the diseases caused by micro organisms?

[Watch Video Solution](#)

3. What type of micro organisms we can observe in pond water?

[Watch Video Solution](#)

4. Whether micro organisms are useful and harmful. How explain.

[Watch Video Solution](#)

5. Why the cooked food spoil soon but not uncooked food. Give your reasons.

 [Watch Video Solution](#)

6. What questions would you like to ask your teacher to know different shapes of bacteria?

 [Watch Video Solution](#)

7. What would happen if you add butter milk to Chilled milk

 [Watch Video Solution](#)

8. How are the human actions causing the death of useful bacteria and fungi? What will happen if it continuous?

 [Watch Video Solution](#)

9. What procedure did you follow to observe lactobacillus bacterium in the lab?

 [Watch Video Solution](#)

10. Visit any bakery near your school with the help of your teacher or parents. Know about preparation of bread and cake and prepare a note on them.

 [Watch Video Solution](#)

11. Observe some permanent slides of micro organisms in your school lab with the help of Microscope. Draw its picture.

 [Watch Video Solution](#)

12. Prepare a model of any microorganism with clay and write the characteristics of the microbe.

 [Watch Video Solution](#)

13. Do you clean your hands with soap before eating, why is it so?

 [Watch Video Solution](#)

14. How do you vaccines works in our body?

 [Watch Video Solution](#)

15. What are the differences between Antibiotic and Vaccine?

 [Watch Video Solution](#)

16. Invention of penicillin protected the world from deaths during first world war. Explain.

 [Watch Video Solution](#)

17. Take three bowls and mark as A,B,C . Pour lukewarm milk in bowl. A hot milk in bowl B, cold milk in bowl C. Add one tea spoon of curd or butter milk in three bowls and stir them slightly. Cover the bowls with lids. Keep the bowls undisturbed for five to six hours. In which bowl milk turned into curd? Give your reasons.

 [Watch Video Solution](#)

18. Collect more information about scientists, who invented and discovered other fact related to Micro organisms. How these

discoveries helped mankind? Make a chan presentation and paste it on your classroom wall magazine.

 [Watch Video Solution](#)

19. Make an Album of scientists and their discoveries related to Micro organisms.

 [Watch Video Solution](#)

20. prepare a list of cattle diseases ?

 [Watch Video Solution](#)

21. What is Pasteurisation?

 [Watch Video Solution](#)

22. Edward Jenner's is collects fluid from cowpox pustule and injects to a eitht year old boy. Then he exposed the boy to smallpox and the boy did not get smallpox. How do you appreciate the during action of Edward Jenner?

Watch Video Solution

23. Visit a nearby milk chilling centre. Observe the process and make a note on them.

Watch Video Solution

24. Comment on the following statement. “Prevention is better than cure. It’s better to control the population of mosquitoes than using mosquito nets.”

 [Watch Video Solution](#)

25. Raheem tells to his neighbours, "Stagnation of sewage in our surroundings is harmful to our health". Do you support this? Why?

 [Watch Video Solution](#)

26. Jeevan said that "If there are no micro organisms earth will remain with wastes" will you agree this statement, why?

 [Watch Video Solution](#)

27. Kavitha is suffering form serious illness. Doctor prescribed antibiotics for five days. After three days of usage she stopped taking antibiotics. Is it right or not, discuss.

 [Watch Video Solution](#)

28. What are the precautions to eradicate Malaria?

Watch Video Solution

29. One medical store owner is giving antibiotics to his customer, who is suffering with fever without doctor's prescription ? But customer's daughter Malathi is telling her father not to take antibiotics without doctor's prescription. Whom do you support and why ?

Watch Video Solution
