7. Here is a news strip, read it carefully and answer the following questions.

Villagers oppose sand mining project

Santhabommali (Srikakulam) :

People of more than 20 villages in two

mandals of Srikakulam have raised a banner of revolt against the proposed beach sand mining project by a private company and threatened to intensify their agitation if the government does not cancel the project. The sand mining is being taken up to extract rich minerals from the area. The villages are located around the forest belt where mining was initiated.

How will mining in that piece of land affect people of the area?
