Drug Addiction

Assertion And Reason

1. [A]: Overuse improper use of antibiotics is harmful.

[R]: It may exterminate the microflora which produces antibiotics

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: A

Watch Video Solution

2. [A]: In Alcoholic drink, the alcohol is converted into glucose in liver.

[R]: Liver cells are able to produce glucose from alcohol by fermentation

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: D

Watch Video Solution

3. [A]: Morphine is most effective analgesic.

[R]: It binds to the post synaptic membrane & blocks the binding of neuro transmitters

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: A

Watch Video Solution

4. [A]: The carrier protein cytochrome P450 detoxifies the harmful contents present in

cigarette smoke in the lungs.

[R]: This is the sole role of cyt P450.

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: C

Watch Video Solution

5. [A]: Alcoholism and tobacco smoking are regarded social diseases.

[R]: Because both adversely affect the families of sufferers

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: B

Watch Video Solution

6. [A]: Smoking stimulates secretion of gastric juice in stomach even when stomach is empty.

[R]: It is aimed at quickening the digestion of food when taken

- A. If both A and R are true and R is the correct explanation of A
- B. If both A and R are true but R is not the correct explanation of A
- C. If A is true and R is false
- D. If both A and R are false

Answer: C

Watch Video Solution

7. [A]: Alcohol intake during pregnancy is not advisable.

[R]: Alcohol causes foetal alcohol syndrome (FAS).

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: A

Watch Video Solution

8. [A]: Smoking causes cancer of tongue, lips & lungs.

[R]: It inactivates P 53 genes

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: A

Watch Video Solution

9. [A]: In low degree smoking is helpful

[R]: In low doses, nicotine stimulates con-
duction of nerves impulses & relaxes the
muscles

- A. If both A and R are true and R is the correct explanation of A
- B. If both A and R are true but R is not the correct explanation of A
- C. If A is true and R is false
- D. If both A and R are false

Answer: A

Watch Video Solution

10. Assertion. Alcohol is taken as a stimulant by drunkards.

Reason. Alcohol improves the conduction of nerve impulses, making the person alert.

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: D

Watch Video Solution

11. [A]: Blood pressure can be measured with a sphygmomanometer in the arm.

[R]: In our body, blood flows with a great pressure only through arms

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: C

Watch Video Solution

12. [A]: Oxygenator acts as artificial kidney.

[R]: Oxygenator machine completely takes over the functions of heart as well as lung.

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: D

Watch Video Solution

13. [A]: Perfluorocarbon can act as the substitute of blood.

[R]: Perfluorocarbon has some properties of blood

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: A

Watch Video Solution

14. [A]: Repeated use of CT scanning is harmful.

[R]: In CT scanning. X-ray is used.

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: A

Watch Video Solution

15. [A]: The "balloon pump" is used to assist the heart.

[R]: Balloon is used when heart is removed from the body.

- A. If both A and R are true and R is the correct explanation of A
- B. If both A and R are true but R is not the correct explanation of A
- C. If A is true and R is false
- D. If both A and R are false

Answer: C

Watch Video Solution

16. [A]: Gene therapy has been employed to correct certain diseases like combined immune deficiency syndrome (SCID).

[R]: Gene therapy can be applied to certain specific diseases.

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: B

Watch Video Solution

17. [A]: While undergoing MRI, patients having pacemaker should take some care.

[R]: MRI does not affect pacemaker.

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: C

Watch Video Solution

18. [A]: For accurate measurement of Doppler echocardiography the frequency of ultrasound waves should be noticed.

[R]: Ultrasound beam can be as close to parallel.

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: B

Watch Video Solution

19. [A]: Person having increased blood urea level suffers from kidney disease.

[R]: Urea cycle operates in kidney.

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: C

Watch Video Solution

20. [A] : Ultrasound (in sonography) is the sound beyond the range of human hearing

[R] : Vibrations crystals is the source of ultrasound

A. If both A and R are true and R is the correct explanation of A

B. If both A and R are true but R is not the correct explanation of A

C. If A is true and R is false

D. If both A and R are false

Answer: B
