BOOKS - USHA BIOLOGY (ODIA ENGLISH)

REPRODUCTIVE HEALTH

Exercise

1. Which of the following is used as a "morning after pill"?

A. Mala - D

B. Unwanted - 72

C. Saheli

D. None of these

Answer:

Watch Video Solution

2. The physiological capacity to produce offspring is called -----

 [Watch Video Solution](#)

3. The best way to decrease population of a country is _____

[Watch Video Solution](#)

4. Marriageable age in India is (in years) ----

[Watch Video Solution](#)

5. Which of the following STDs are not completely curable ?

A. chancroid, syphilis, genital warts

B. Chlamydia, gonorrhoea,
trichomoniasis

C. AIDS, syphilis, genital warts

D. AIDS, genital herpes, hepatitis-B

Answer:

Watch Video Solution

6. In which year, India launched a nationwide family planning programme ?

[Watch Video Solution](#)

7. What is the safe period considered before Medical Termination of Pregnancy (MTP)?

[Watch Video Solution](#)

8. Most widely practised method of family planning by eligible couple in India is ----

[Watch Video Solution](#)

9. Which one of the following is the commonest STD in India ?

A. Syhillis

B. Gonorrhoea

C. AIDS

D. Herpes

Answer:

Watch Video Solution

10. Which of the following birth control measures can be considered as the safest ?

A. the rhythm method

B. The use of physical barriers

C. Termination of unwanted pregnancy

D. Sterilization techniques

Answer:

Watch Video Solution

11. Chancroid is a sexually transmitted disease caused by:

A. Treponema

B. Haemophilus

C. Neisseria

D. Chlamydia

Answer:

Watch Video Solution

12. In vitro fertilisation is a technique that involves transfer of which one of the following into the Fallopian tube?

A. Embryo only upto 8 cell stage

B. Either zygote or early embryo upto 8 cell stage

C. Embryo of 32 cell stage

D. Zygote only

Answer:

Watch Video Solution

13. What is used to correct the presence of antisperm antibodies in the semen ?

 [Watch Video Solution](#)

14. What is caused by the pathogen *Treponema pallidum*?

[Watch Video Solution](#)

15. Which one of the following is correct for human population growth?

A. Lag

B. Stationary

C. Exponential

D. Non-of these

Answer:

Watch Video Solution

16. The condition where the motility of sperms is absent in semen.

Watch Video Solution

17. Barrier method of contraception includes all except ----

A. Condom

B. Vasectomy

C. Vault

D. Diaphragm

Answer:

Watch Video Solution

18. Amniocentosis is process to :

A. determine any discase in the heart

B. know about disease of brain

C. determine hereditary disease in the
embryo

D. all of these

Answer:

Watch Video Solution

19. What is correct about test tube baby?

A. Fertilization inside female genital tract and growth in test tube.

B. Rearing of prematurely born baby in incubator.

C. Fertilization outside and gestation inside womb of mother.

D. Both fertilization and development outside the female genital tract.

Answer:

Watch Video Solution

20. Which of the following is a non-medicated intra uterine device?

A. Lippes Loop

B. Cu T - 200

C. CuT - 380

D. Multiload 375

Answer:

Watch Video Solution

21. Which one of the following is a natural method of contraception?

A. Condoms

B. diaphragms

C. Coitus interrupts

D. Oral pills

Answer:

Watch Video Solution

22. Assisted reproductive technique (ART) includes ----

A. Awareness programme to educate people about reproductive health and disease.

B. Research organisations cooking on to produce new and more effective contraceptives for birth controls.

C. A number of special techniques which assist infertile couple to have children.

D. both (b) and (c)

Answer:

Watch Video Solution

23. Hormones that are injected one every three months that release slowly and prevent ovulation are ----

Watch Video Solution

24. The stage transferred into the uterus after induced fertilization of ovum in laboratory is ----

Watch Video Solution

25. Tubectomy is a method of sterilization in which ---

A. small part of Fallopian tube is removed or tied up.

B. Ovaries are removed surgically

C. small part of vas deferens is removed or tied up.

D. Uterus is removed surgically

Answer:

Watch Video Solution

26. Which of the following is a hormone releasing Intra Uterine Device (IUD) ?

A. Multiload 375

B. LNG - 20

C. Cervical Cap

D. Vault

Answer:

Watch Video Solution

27. Assisted reproductive technology, IVF involves transfer of:

A. Ovum into Fallopian Tube

B. Zygote into Fallopian Tube

C. Zygote into Uterus

D. Embryo with 16 blastomeres into Fallopian Tube

Answer:

Watch Video Solution

28. Which of the following is the prenatal diagnostic technique ?

A. ELISA

B. ESR

C. Amniocentesis

D. Widal Test

Answer:

Watch Video Solution

29. The number of organisms in population are added by ----

A. Immigration

B. birth

C. Emmigration

D. both (a) and (b)

Answer:

Watch Video Solution

30. Which of the following is a technique of direct introduction of gametes into the oviduct ?

A. MTS

B. ET

C. IVF

D. POST

Answer:

Watch Video Solution

31. The technique called Gamete Intra Fallopian Transfer (GIFT) is recommended for those females ----

A. Who can not produce an ovum

B. Who can not retain the foetus inside Uterus.

C. Whose cervical canal is too narrow to allow passage for the sperms.

D. Who can not provide suitable environment for fertilization.

Answer:

Watch Video Solution

32. Which of the following is not included in Assisted Reproductive Technology ----

A. IVF

B. GIFT

C. i-Pill

D. ICSI

Answer:

Watch Video Solution

33. The physiological capacity to produce offspring is called -----

- A. Population growth
- B. Birth rate
- C. Biotic potentia
- D. Population explosion

Answer:

Watch Video Solution

34. Which of the following test is misused for sex determination of unborn baby ?

- A. Erythroblastosis
- B. VDRL test
- C. Australian antigen test
- D. Amniocentesis

Answer:

Watch Video Solution

35. Oral contraceptive pills are composed of :

A. Vasopressin

B. Adrenalin

C. Estrogen- Progesterone

D. STH

Answer:

Watch Video Solution

36. The formula for exponential population growth is :

A. $dN / dt = rN$

B. $dt / dN = rN$

C. $dN / rN = dt$

D. $rN / dN = dt$

Answer:

37. Which one of the following is the most widely accepted method of contraception in India, as at present ?

- A. Cervical caps
- B. Tubectomy
- C. Diaphragm
- D. IUDs (Intra Uterine Device)

Answer:

[Watch Video Solution](#)

38. The test tube baby programme employs which one of the following techniques ?

- A. Intra cytoplasmic sperm injection (ICSI)
- B. Intra Uterine Insemination (IUI)
- C. Gamete Intra Fallopian Transfer (GIFT)
- D. Zygote intra Fallopian Transfer (ZIFT)

Answer:

[Watch Video Solution](#)

39. Copper-T prevents :

A. Fertilization

B. Ovulation

C. Implantation of embryo in uterous wall

D. Blocks reproductive drugs

Answer:

Watch Video Solution

40. "Population explosion" being witnessed today is mainly due to ---

Watch Video Solution

41. What are the hormonal composition of oral pills?

Watch Video Solution

42. Which period of menstrual cycle has highest chances of conception ?

[Watch Video Solution](#)

43. At what stage is the embryo implanted in the uterus of the mother in case of test tube baby

[Watch Video Solution](#)

44. In which institute of India, Saheli, an oral contraceptive was developed ?

[Watch Video Solution](#)

45. Which day is celebrated as world population day ?

Watch Video Solution

46. Who first devised the In vitro fertilization Technique ?

Watch Video Solution

47. What is the term used for inability conceive?

Watch Video Solution

48. Name the term for pre-natal diagnostic technique aimed to know the sex developing foetus and congenital disorder.

Watch Video Solution

49. Express in one or two word(s)

Which device prevents the entry of sperms into the uterus?

Watch Video Solution

50. In which year, Malthus theory of human population growth was implemented ?

Watch Video Solution

51. Fill in the blank

The scientific study of human population is called

Watch Video Solution

52. Name the oral pill recommended for use by Indian women once a week.

Watch Video Solution

53. Give term for cutting of vas deferens of male.

Watch Video Solution

54. What is the other technical term used for birth control ?

Watch Video Solution

55. In India, "Family-planning programme" was started in :

Watch Video Solution

56. What is the causative agent of gonorrhoea? What are its symptoms and treatment?

Watch Video Solution

57. Name a drug that cannot cure AIDS but can prolong the life of AIDS patients.

Watch Video Solution

58. What is the mechanical device implanted in uterus for prevention of pregnancy ?

Watch Video Solution

59. Name the fluid from which foetal cells are obtained for chromosome analysis.

Watch Video Solution

60. What term is used for blockage of fallopian tube ?

Watch Video Solution

61. Give term for cutting of fallopian tube of female.

Watch Video Solution

62. Which female (mother) is used to implant in vitro (IVF) fertilized ovum leading to childbirth ?

Watch Video Solution

63. Name the technique to know genetic disorder of the foetus.

Watch Video Solution

64. Female condoms are called :

Watch Video Solution

65. Fill up the blank :A soft rubber cup that covers the entry path of uterus and obstructs

sperm entry is called ___.

[Watch Video Solution](#)

66. Fill up the blank :When the male is unable to erect and penetrate the penis into the vagina of female, the condition is called ____.

[Watch Video Solution](#)

67. Fill up the blank :The defect with testis due to which very less number of sperms are

produced is called ____.

Watch Video Solution

68. Fill up the blank :In India, census is done after ____ years.

Watch Video Solution

69. Fill in the blank

The method of preserving sperm in frozen condition is called

[Watch Video Solution](#)

70. An instrument used for tubal ligation is _____.

[Watch Video Solution](#)

71. A state of healthy reproductive organs with normal function is _____.

[Watch Video Solution](#)

72. Fill up the blank :According to T.R. Malthus, while food growth occurs in arithmetic progression, population growth occurs in ____ progression.

Watch Video Solution

73. Fill in the blank

The sterilisation procedure in males is called and in females is called

Watch Video Solution

74. Female condoms are called :

[Watch Video Solution](#)

75. Fill up the blank :Absence of menstruation during lactation is called ____.

[Watch Video Solution](#)

76. Fill up the blank :Official counting of population in every 10 year is called ____.

[Watch Video Solution](#)

77. Fill up the blank :The number of individuals of same species that have come into the habitat is called

[Watch Video Solution](#)

78. Fill up the blank :In India, first census was carried out in ____.

[Watch Video Solution](#)

79. Fill up the blank :Saheli contains a non-steroidal preparation called ____ to prevent implantation.

Watch Video Solution

80. Fill up the blank :Sterilization case of female is called ____.

Watch Video Solution

81. Fill up the blank :MTPs are relatively safe during ___ trimester of pregnancy.

Watch Video Solution

82. Fill up the blank :Hepatitis - B can be diagnosed by ___ and ___.

Watch Video Solution

83. Fill up the blank : Multiload - 375 is a ___ releasing IUCD.

[Watch Video Solution](#)

84. Fill up the blank :At present MTP is legally allowed upto ___ week of pregnancy, in India.

[Watch Video Solution](#)

85. Difference between:Temporary birth control and permanent birth control.

[Watch Video Solution](#)

86. Difference between:Invivo fertilization and
Invitro fertilization.

Watch Video Solution

87. Difference between:Vasectomy and
Tubectomy

Watch Video Solution

88. Difference between:Natural method of birth control and Barrier method of birth control.

Watch Video Solution

89. Difference between:Combined pills and Minipills.

Watch Video Solution

90. Difference between: Male infertility and Female infertility.

Watch Video Solution
