

BIOLOGY

BOOKS - SARAS PUBLICATION

Do you Know Questions

Example

1. "An introduction to the embryology of Angiosperm" was published by-

A. Maheswari

B. K.V. Krishnamurthy

C. E.Strasburger

D. D.A. Johnsen

Answer:

Watch Video Solution

2. Which of the following is called "Terror of Bengal"?

A. Bryophyllum

B. Eichhornia

C. Pisita

D. Allium

Answer:

Watch Video Solution

3. The study of pollen grains is

A. Pollenology

B. Palynology

C. Phytology

D. Pollenialogy.

Answer:

Watch Video Solution

4. Which of the following is an example of obligate mutualism?

A. Yucca and moth

B. Vallisneria and moth

C. Primula and butterfly

D. Lythrum and butterfly

Answer:

Watch Video Solution

5. Which of the following plant has female wasp like flower?

A. Ophyrus

B. Amorphophallus

C. Salvia

D. Bougaivilla

Answer:

Watch Video Solution

6. which of the following secretes amylase during germination?

A. Sphaerosome

B. Ovule

C. Chromosome

D. Ribosome

Answer:

Watch Video Solution

7. Aleurone layers are found around the endosperm of

A. Fruits

B. Vegetables

C. Cereals

D. Wood

Answer:

Watch Video Solution

8. Which of the following is cellular endosperm portion of coconut fruit?

A. Tender coconut

B. Kernel part

C. Coconut water

D. Coconut milk

Answer:

Watch Video Solution

9. Fresh weight of an orchid seed is

A. 20.33 microgram

B. 21.33 microgram

C. 22.33 microgram

D. 23.33 microgram

Answer:

Watch Video Solution

10. The weight of *Lodoicea maldivica* seed is

A. 60 kg

B. 6 kg

C. 600 kg

D. 0.6 kg

Answer:

Watch Video Solution

11. Which chemical induces polyploidy in plants?

A. Colchicine

B. Mustard gas

C. Methyl methanesulphonate

D. Erythrosine

Answer:

Watch Video Solution

12. Identify the forest that occurs where there is heavy rainfall.

A. Sclerophyllous forest

B. Coniferous forest

C. Evergreen forest

D. Deciduous forest

Answer:

Watch Video Solution

13. Sclerophyllous forests are found where.

A. Heavy rainfall occurs during winter and

mild rainfall during summer

B. Heavy rainfall occurs during rainy

season and low rainfall during summer.

C. Low rainfall occurs during summer and low rainfall during winter.

D. Heavy rainfall occurs during summer and low rainfall during winter.

Answer:

Watch Video Solution

14. Identify the element responsible for acid rain.

A. Cobalt

B. Chlorine

C. Phosphorus

D. Sulphur

Answer:

Watch Video Solution

15. Carbon stored in the atmosphere and ocean is called

- A. Blue carbon
- B. Grey carbon
- C. Brown carbon
- D. Black carbon.

Answer:

Watch Video Solution

16. Green house effect is not produced by

Watch Video Solution

17. The unit for measuring ozone thickness

Watch Video Solution

18. Pioneer mutation breeder is

Watch Video Solution

19. NBPGR stands for

Watch Video Solution

20. Dwarfing gene of wheat is

[Watch Video Solution](#)

21. The term mutation was coined by _____
in 1901.

[Watch Video Solution](#)

22. _____ is the Father Green revolution.

 [Watch Video Solution](#)

23. IRRI stands for

 [Watch Video Solution](#)

24. Who was awarded a Nobel prize for peace in 1970?

 [Watch Video Solution](#)

25. Cotton hybrid was developed by

Watch Video Solution

26. Define palynology and cryopreservation.

Watch Video Solution

27. What is pseudocopulation?

Watch Video Solution

28. Does environment play a major role in the determination of sex in plants? Explain.

Watch Video Solution

29. What is colchicine? Will it affect the source plant?

Watch Video Solution

30. Name some vectors used in biotechnology.

[Watch Video Solution](#)

31. What is cosmid.

[Watch Video Solution](#)

32. Write notes on bacteriophage vectors.

[Watch Video Solution](#)

33. What is barcode in genetics?

[Watch Video Solution](#)

34. What is an agar?

[Watch Video Solution](#)

35. What is proto cooperation?

[Watch Video Solution](#)

36. What are blue carbon ecosystem?

[Watch Video Solution](#)

37. Define the term limnology.

[Watch Video Solution](#)

38. Define oceanography.

[Watch Video Solution](#)

39. Define ecosystem resilience.

Watch Video Solution

40. What are the different ways of 'Go green and save green'?

Watch Video Solution

41. What does 'Go green' refer to ?

Watch Video Solution

42. Define Dobson unit.

Watch Video Solution

43. What is meant by biomonitoring in ecological point of view.

Watch Video Solution

44. What is Chipko movement?

Watch Video Solution

45. Where and by whom was Appiko movement started?

Watch Video Solution

46. Write a note on NBPGR.

Watch Video Solution

47. What is pseudo cereal? Give an example.

Watch Video Solution

48. Write short notes on amoeboid tapetum.

Watch Video Solution

49. What is be pollen?

Watch Video Solution

50. Define pollen calendar. What are the allergic reactions caused by pollen grains?

Watch Video Solution

51. Explain the role of fossil genes in understanding evolution.

Watch Video Solution

52. Define applied ecology. List its uses.

Watch Video Solution

53. Define palaeoclimatology and its use.

Watch Video Solution

54. What is Albedo effect and write their effects?

Watch Video Solution

55. Write the types of Carbon.

Watch Video Solution

56. List the plants that are used as biological indicators. Mention what they indicate for?

Watch Video Solution

57. Give the year of launch and applications of SCATSAT-I satellite.

[Watch Video Solution](#)

58. Name the 100th satellite. Give its year of launch and its applications.

[Watch Video Solution](#)

59. Give the applications of INSAT 3DR and GSAT-6A satellites.

[Watch Video Solution](#)

60. List out the important Indian plant breeders and their role in plant breeding.

Watch Video Solution

61. Write a note on NBPGR.

Watch Video Solution

62. Write notes on Norin 10.

Watch Video Solution

63. Who was a disciple of Dr. Nammalvar?

Write his contribution on agriculture.

Watch Video Solution

64. Write a note on vulcanization of rubber.

Watch Video Solution

65. Name the floral perfume, that ranks next to the rose oil.

Watch Video Solution

66. What is cryptorchism? What is the solution for this?

Watch Video Solution

67. What is PCOS? Give the treatment options.

Watch Video Solution

68. Give the types of twins formed during pregnancy with their alternative names.

Watch Video Solution

69. What is azospermia?

Watch Video Solution

70. What is Mayer-Rokitansky syndrome?

[Watch Video Solution](#)

71. What are the methods to diagnose breast cancer.

[Watch Video Solution](#)

72. What does the hypothesis proposed by Beadle and Tatum state?

[Watch Video Solution](#)

73. What does one gene-one polypeptide hypothesis state?

[Watch Video Solution](#)

74. Define pharmacogenomics and give its importance.

[Watch Video Solution](#)

75. Is it possible to reduce bacterial resistance?

[Watch Video Solution](#)

76. Write a note on GALT?

[Watch Video Solution](#)

77. Write a note on BALT?

[Watch Video Solution](#)

78. Define antigenicity.

Watch Video Solution

79. Write down the scope of Immunology.

Watch Video Solution

80. Compare Broad spectrum antibiotics with narrow spectrum antibiotics.

[Watch Video Solution](#)

81. Define alcoholism.

[Watch Video Solution](#)

82. What is antibiosis ?

[Watch Video Solution](#)

83. Why penicillin is referred to as the queen of drugs?

Watch Video Solution

84. Write about somatic cell nuclear transfer in animal cloning.

Watch Video Solution

85. Name the hereditary disease for which the first clinical gene therapy was used.

Watch Video Solution

86. What do you know about gene knock out?

Watch Video Solution

87. State Bergmann's rule.

Watch Video Solution

88. State Allen's rule.

Watch Video Solution

89. What is photokinesis ?

Watch Video Solution

90. Which desert receives lowest rainfall of <math><15\text{mm}</math> per year?

Watch Video Solution

91. Define ethology?

Watch Video Solution

92. What is the purpose behind the Project Tiger.

Watch Video Solution

93. What is sameer?

Watch Video Solution

94. What is the assessment of pollution of Indian rivers by CPCB?

Watch Video Solution

95. Define natural parthanogenesis. Explain its types.

[Watch Video Solution](#)

96. What is first milk? Write its composition and significance.

[Watch Video Solution](#)

97. Name the health care programmes given by the government at national level.

[Watch Video Solution](#)

98. What is Cryopreservation?

Watch Video Solution

99. Do animals have antigens on the surface of RBC's as in humans. Justify

Watch Video Solution

100. Coacervates are

Watch Video Solution

101. List out the causes and symptoms of swineflu.

Watch Video Solution

102. What are primary lymphoid organs?

Watch Video Solution

103. Differentiate probiotics and prebiotics.

[Watch Video Solution](#)

104. Explain how "Rosie" is different from a normal cow.

[Watch Video Solution](#)

105. Write notes on Adenoids.

[Watch Video Solution](#)

106. What are Peyer's patches.

Watch Video Solution

107. Write notes on edible vaccines? Where do they target?

Watch Video Solution

108. What is phototaxis ?

Watch Video Solution

109. What is phototropism ?

Watch Video Solution

110. Historically biomes are known to move as climate changes, 'Write about the desert that prove this statement'.

Watch Video Solution

111. Write the characteristics of tundra.

Watch Video Solution

112. Write a short note on interdependence of living components.

Watch Video Solution

113. Write short notes on "Zoo Ambassador".

Watch Video Solution

114. Write a short note on Arignar Anna Zoological park, Vandalur.

Watch Video Solution

115. Define twins. Explain the types of twins.

Watch Video Solution

116. Expand WBW. Write short notes about it.

[Watch Video Solution](#)

117. Explain about breast self Examination and Early diagnosis of Cancer.

[Watch Video Solution](#)

118. Write about Wiener hypothesis?

[Watch Video Solution](#)

119. What are stem cells? Explain their role in the field of medicine.

Watch Video Solution

120. Define Van't Hoff factor.

Watch Video Solution

Exercise

1. In which type of parthenogenesis are only males produced ?

A. Arrhenotoky

B. Thelytoky

C. Amphitoky

D. Both a and b

Answer:

Watch Video Solution

2. Animals giving birth to young ones are

- A. Oviparous
- B. Ovoviviparous
- C. Viviparous
- D. Both a and b

Answer:

Watch Video Solution

3. What is cryptorchism?

- A. Failure of formation of fallopian tube
- B. Failure of formation of ovary
- C. Failure of formation of prostate gland
- D. Failure of testes to descend into the scrotum

Answer:

Watch Video Solution

4. The _____ is the smallest human cell.

A. Ovum

B. Sperm

C. Epithelial cell

D. Follicular cell

Answer:

Watch Video Solution

5. Of the million eggs produced, how many of them ovulate before menopause?

- A. 300 to 400
- B. 3000 to 4000
- C. 30 to 40
- D. 30000 to 40000

Answer:

Watch Video Solution

6. _____twins are conjoined twins, who are joined during birth.

- A. Siamese twins
- B. Monozygotic twins
- C. Dizygotic twins
- D. Fraternal twins

Answer:

Watch Video Solution

7. Which week is celebrated as World Breast feeding week?

A. January 1st week

B. March 1st week

C. August 1st week

D. December 1st week

Answer:

Watch Video Solution

8. Orchidectomy is the surgical removal of

A. Liver

B. Kidney

C. Testis

D. Ovary

Answer:

Watch Video Solution

9. _____ is the first ejaculation of semen.

A. Orchindectomy

B. Prostatitis

C. Spermarche

D. Spermatogenesis

Answer:

Watch Video Solution

10. India's infant mortality rate

A. 44 per 1000

B. 20 per 1000

C. 40 per 1000

D. 50 per 1000

Answer:

Watch Video Solution

11. A unit of health and family welfare department does free screening for cervical and breast cancer.

A. TNHPS

B. RCH

C. POSCO

D. PGNCTP

Answer:

Watch Video Solution

12. Cryopreservation of embryos are done when _____

A. Eggs are not available

B. sperm count is less

C. More embryo's are available than the
required

D. Abnormality in the embryo

Answer:

Watch Video Solution

13. Sex hormones were discovered by

A. Adolf Butenandt

B. Gergon

C. Raphel Walt

D. Verner

Answer:

Watch Video Solution

14. _____ is observed as world population day

A. 10th July

B. 11th July

C. 12th July

D. 13th July

Answer:

Watch Video Solution

15. NACO was established in

A. 1991

B. 1990

C. 1992

D. 1996

Answer:

Watch Video Solution

16. Anti-sterility vitamin

A. Vit-A

B. Vit-D

C. Vit-E

D. Vit-B

Answer:

Watch Video Solution

17. Who proposed one gene-one enzyme hypothesis?

A. Beadle and Tatum

B. Watson and Crick

C. Hershy and Chase

D. Macleod and Mc Carty

Answer:

Watch Video Solution

18. Wobble hypothesis was proposed by

A. Nirenberg

B. Jacob

C. Khorona

D. Crick

Answer:

Watch Video Solution

19. Which of the following antibiotic inhibits the interaction between tRNA and mRNA?

A. Tetracycline

B. Neomycin

C. Streptomycin

D. Erythromycin

Answer:

Watch Video Solution

20. Name the "First pre-cells" transformed into "living cells"?

A. Biotic soup

B. Coa cervates

C. Protobionts

D. Protista

Answer:

Watch Video Solution

21. Swine flu was first identified in

A. 1990

B. 1991

C. 1919

D. 1921

Answer:

Watch Video Solution

22. Zoonotic virus

A. HIV

B. Nipah

C. Poli virus

D. Poxo virus

Answer:

Watch Video Solution

23. _____ is a pandemic disease.

A. Polio

B. Swine flu

C. Dysentery

D. Dengue fever

Answer:

Watch Video Solution

24. Swine flu is caused by virus.

A. H_1N

B. H_1N_1

C. HIV

D. Rhino

Answer:

Watch Video Solution

25. Is a primary lymphoid organ of birds.

A. Bursa of fabricius

B. Liver

C. Spleen

D. Liver

Answer:

Watch Video Solution

26. Payers patch is located in

A. Tonsils

B. Spleen

C. Liver

D. GI Tract

Answer:

Watch Video Solution

27. Secondary lymphoid organ which contains B and T-cells.

A. Bone marrow

B. Spleen

C. Liver

D. Kidney

Answer:

Watch Video Solution

28. Small pox vaccine was first prepared by

A. Dr. Edward Jenner

B. Dr. Jonas Salk

C. Dr. Albert Sabin

D. Dr. Calmette

Answer:

Watch Video Solution

29. BCG vaccine is for

A. Typhoid

B. Tuberculosis

C. Polio

D. Chicken pox

Answer:

Watch Video Solution

30. World biofuel day is observed every year
on

A. 10th August

B. 15th October

C. 28th March

D. 23rd August

Answer:

Watch Video Solution

31. The first synthetic vaccine produced was

_____ .

A. MMR

B. Hb and Xg

C. Polio

D. BCG

Answer:

Watch Video Solution

32. Ian Wilmut and Campbell fused 277 somatic udder cells with 277 enucleated egg cells. The resultant embryo was cultured for 6

day. How many embryos was then implanted into the surrogate mother's womb?

- A. 9 embryos
- B. 29 embryos
- C. 19 embryos
- D. 39 embryos

Answer:

Watch Video Solution

33. Negative phototaxis is seen in

A. Moths

B. Sunflower

C. Earthworm

D. Artic fishes

Answer:

Watch Video Solution

34. Which desert receives a rainfall of about 280 mm/year?

- A. American desert
- B. Atacama desert
- C. Inland Sahara desert
- D. Arabian desert

Answer:

Watch Video Solution

35. Which desert receives lowest rainfall of <15mm per year?

A. American desert

B. Thar desert

C. Kalahari desert

D. Atacama desert

Answer:

Watch Video Solution

36. Which is the scientific study of animal behaviour, under natural conditions called as

A. Entomology

B. Anthropology

C. Ethology

D. ichthyology

Answer:

Watch Video Solution

37. When did George, the tree snail in Hawaii become extinct?

A. March 1, 2018

B. Jan 25, 2019

C. April 30, 2019

D. Jan 1, 2019

Answer:

Watch Video Solution

38. What is the App that is introduced to find out Air Quality Index(AQI)?

A. Facebook

B. Twitter

C. Google

D. Sameer

Answer:

Watch Video Solution

39. Taj Mahal in India which was once a white marble beauty has become yellow?

- A. Industrial pollution
- B. Water pollution
- C. Ultraviolet radiation
- D. Desertification

Answer:

Watch Video Solution

40. Average human consumption of oxygen per day is _____.

A. 500 L

B. 400 L

C. 550 L

D. 300 L

Answer:

Watch Video Solution

41. Oxygen production by one healthy tree/year is

A. 100000 L

B. 1050000 L

C. 25000 L

D. 1000375 L

Answer:

Watch Video Solution

42. Deet and allethrin used in mosquito coils may casue

A. Itching

B. Burning

C. Numbness

D. a,b,c

Answer:

Watch Video Solution

43. Musquito repellants contain.....
chemicals that causes allergic reactions.

- A. DEET and nitrous oxide
- B. DEET and alethrin
- C. Allethrin and acetanilide
- D. Allethrin and decaborane

Answer:

Watch Video Solution

44. When did Tamil Nadu government ban single use plastics?

A. 1 st January 2019

B. 8th January 2019

C. 11th January 2019

D. 21st January 2019

Answer:

Watch Video Solution

45. The endangered species Nilgiri Tahr would lose 60% of its habitat from 2030s. What is the reason for this?

- A. Evolution
- B. Competition
- C. Climate change
- D. Loss of productivity

Answer:

Watch Video Solution

46. The Ozone Day is observed every year on September 16 as on this day in 1987 the _____ was signed for launching efforts to arrest the depletion of the fragile ozone layer in the stratosphere that prevents the harmful ultra violet rays of the sun from reaching the earthh, Fill the correct word in blank.

A. Montreal Protocol

B. Geneva Protocol

C. Kyoto Protocol

D. Nagoya Protocol

Answer:

Watch Video Solution

47. Which among the following awards instituted by the Government of India for individuals or communities from rural areas that have shown extraordinary courage and dedication in protecting Wildlife?

A. Indira Gandhi Parayvaran Puraskar

B. Medini Puruskar Yojana

C. Amrita Devi Bishnoi Award

D. Pitambar Pant National Award

Answer:

Watch Video Solution

48. When is ozone day celebrated?

Watch Video Solution

49. "Amrita Devi Bishnoi smriti Award" is given for.

- A. Conservation fo water
- B. Conservation fo wild life
- C. Conservation of forest
- D. Conservation of Bishnoi culture

Answer:

Watch Video Solution

50. Identify the remedy for plastic pollution?

A. Recycle

B. Reduce

C. Reuse

D. All of the above

Answer:

Watch Video Solution

51. UN first conference of human environment was held in

A. Johannesburg-2002

B. New York, U.S.A.-2015

C. Kigali Rawd-2016

D. Stockholm, Swege-1972

Answer:

Watch Video Solution

52. In which type of parthenogenesis are only males produced ?

A. Arrhenotoky

B. Thelytoky

C. Amphitoky

D. Both a and b

Answer:

Watch Video Solution

53. The animals which give birth to young ones are

- A. Oviparous
- B. Ovoviviparous
- C. Viviparous
- D. Both a and b

Answer:

Watch Video Solution

54. What is cryptorchism?

- A. Failure of formation of fallopian tube
- B. Failure of formation of ovary
- C. Failure of formation of prostate gland
- D. Failure of testes to descend into the scrotum

Answer:

Watch Video Solution

55. The smallest human cell is

A. Ovum

B. Sperm

C. Epithelial cell

D. Follicular cell

Answer:

Watch Video Solution

56. Of the million eggs produced, how many of them ovulate before menopause?

- A. 300 to 400
- B. 3000 to 4000
- C. 30 to 40
- D. 30000 to 40000

Answer:

Watch Video Solution

57. _____ twins are conjoined twins, who are joined during birth.

- A. Siamese twins
- B. Monozygotic twins
- C. Dizygotic twins
- D. Fraternal twins

Answer:

Watch Video Solution

58. Which week is celebrated as World Breast feeding week?

A. January 1st week

B. March 1st week

C. August 1st week

D. December 1st week

Answer:

Watch Video Solution

59. Orchidectomy is the surgical removal of

A. Liver

B. Kidney

C. Testis

D. Ovary

Answer:

Watch Video Solution

60. _____ is the first ejaculation of semen.

A. Orchindectomy

B. Prostatitis

C. Spermarche

D. Spermatogenesis

Answer:

Watch Video Solution

61. India's infant mortality rate

A. 44 per 1000

B. 20 per 1000

C. 40 per 1000

D. 50 per 1000

Answer:

Watch Video Solution

62. A unit of health and family welfare department does free screening for cervical and breast cancer.

A. TNHPS

B. RCH

C. POSCO

D. PGNCTP

Answer:

Watch Video Solution

63. Cryopreservation of embryos are done when _____

A. Eggs are not available

B. sperm count is less

C. More embryo's are available than the
required

D. Abnormality in the embryo

Answer:

Watch Video Solution

64. Sex hormones were discovered by

A. Adolf Butenandt

B. Gergon

C. Raphel Walt

D. Verner

Answer:

Watch Video Solution

65. World population day

A. 10th July

B. 11th July

C. 12th July

D. 13th July

Answer:

Watch Video Solution

66. NACO was established in

A. 1991

B. 1990

C. 1992

D. 1996

Answer:

Watch Video Solution

67. Anti-sterility vitamin

A. Vit-A

B. Vit-D

C. Vit-E

D. Vit-E

Answer:

Watch Video Solution

68. Who proposed one gene-one enzyme hypothesis?

A. Beadle and Tatum

B. Watson and Crick

C. Hershy and Chase

D. Macleod and Mc Carty

Answer:

Watch Video Solution

69. Wobble hypothesis was proposed by

A. Nirenberg

B. Jacob

C. Khorona

D. Crick

Answer:

Watch Video Solution

70. Which antibiotic inhibits binding between tRNA and mRNA

- A. Tetracycline
- B. Neomycin
- C. Streptomycin
- D. Erythromycin

Answer:

Watch Video Solution

71. Name the "First pre-cells" transformed into "living cells"?

- A. Biotic soup
- B. Coa cervates
- C. Protobionts
- D. Protista

Answer:

Watch Video Solution

72. Swine flu was first identified in

A. 1990

B. 1991

C. 1919

D. 1921

Answer:

[Watch Video Solution](#)

73. Zoonotic virus

A. HIV

B. Nipah

C. Poli virus

D. Poxxy virus

Answer:

[Watch Video Solution](#)

74. _____ is a pandemic disease.

A. Polio

B. Swine flu

C. Dysentery

D. Dengue fever

Answer:

Watch Video Solution

75. Swine flu is caused by virus.

A. H_1N

B. H_1N_1

C. HIV

D. Rhino

Answer:

Watch Video Solution

76. Is a primary lymphoid organ of birds.

A. Bursa of fabricius

B. Liver

C. Spleen

D. Liver

Answer:

Watch Video Solution

77. Payers patch is located in

A. Tonsils

B. Spleen

C. Liver

D. GI Tract

Answer:

Watch Video Solution

78. Secondary lymphoid organ which contains B and T-cells.

A. Bone marrow

B. Spleen

C. Liver

D. Kidney

Answer:

Watch Video Solution

79. Small pox vaccine was first prepared by

A. Dr. Edward Jenner

B. Dr. Jonas Salk

C. Dr. Albert Sabin

D. Dr. Calmette

Answer:

Watch Video Solution

80. BCG vaccine is for

A. Typhoid

B. Tuberculosis

C. Polio

D. Chicken pox

Answer:

Watch Video Solution

81. World biofuel day is observed every year on

A. 10th August

B. 15th October

C. 28th March

D. 23rd August

Answer:

Watch Video Solution

82. The first synthetic vaccine produced was

_____ .

A. MMR

B. Hb and Xg

C. Polio

D. BCG

Answer:

Watch Video Solution

83. Ian Wilmut and Campbell fused 277 somatic udder cells with 277 enucleated egg cells. The resultant embryo was cultured for 6

day. How many embryos was then implanted into the surrogate mother's womb?

- A. 9 embryos
- B. 29 embryos
- C. 19 embryos
- D. 39 embryos

Answer:

Watch Video Solution

84. Negative phototaxis is seen in

A. Moths

B. Sunflower

C. Earthworm

D. Artic fishes

Answer:

Watch Video Solution

85. Which desert receives a rainfall of about 280 mm/year?

- A. American desert
- B. Atacama desert
- C. Inland Sahara desert
- D. Arabian desert

Answer:

Watch Video Solution

86. Which desert receives lowest rainfall of <15mm per year?

A. American desert

B. Thar desert

C. Kalahari desert

D. Atacama desert

Answer:

Watch Video Solution

87. Which is the scientific study of animal behaviour, under natural conditions called as

- A. Entomology
- B. Anthropology
- C. Ethology
- D. Ichthyology

Answer:

Watch Video Solution

88. When did George, the tree snail in Hawaii become extinct?

A. March 1, 2018
