5. Read the passage carefully and answer the questions that follow:

The water of the river Yamuna in Delhi has become useless. The water of this river is most polluted and has received E grade in terms of quality. This is the lowest grade which indicates the severity of pollution in the water. Some fifty years ago the water of the Yamuna was clear and clean. Many water plants such as weeds, algae and shrubs grew in its water or

along the bank of the river. These plants were the main source of food for aquatic creatures. A number of waterbirds could be seen along the river. With the onset of winter thousands of migratory birds would come here to feed in the Yamuna water. Sadly these water species and birds have vanished or died. What one finds now are red worms, called chironomids which live in the most unhygienic and polluted water.

Which grade has the water of Yamuna received in terms of quality?

1. Read the following passage and answer the question that follow :

"Tea was first drunk in China," Rajvir added, "as far back as 2700 B.C.! In fact words such as tea,

chai and chini are from Chinese. Tea came to Europe only in the sixteenth century and was drunk more as medicine than as beverage."

The train clattered into Mariani junction. Pranjol's parents were waiting for them. Soon they were driving towards Dhekiabari, the tea-garden managed by Pranjol's father. On both sides of the gravel-road were acre upon acre of tea-bushes. Groups of tea-pluckers, with bamboo baskets on their backs, wearing plastic aprons, were plucking the newly sprouted leaves.
