1. Read the passage carefully and answer the question that follows. Very soon Mij would follow me without a lead and come to me when I called his name . He spent most of his time in play . He spent hours shuffling a rubber ball round the room like a four - footed soccer player using all four feet to dribble the ball , and he could also throw it , with a powerful flick of the neck , to a surprising height and distance . But the real play of an other is when he lies on his back and juggles

with small objects between his paws . Marbles were Mij's favourite toys for his pastime : he would lie on his rolling two or more of them up and down his wide , flat belly without ever dropping one of the floor .

What did the otter do to a rubber ball ?
