(ENGLISH)

SURFACE AREA AND VOLUME OF A SPHERE

Others

1. A solid sphere of radius 3cm is melted and then cast into small spherical balls each of diameter 0.6 cm. Find the number of balls thus obtained.

[Watch Video Solution](#)

2. How many spherical bullets can be made out of a solid cube of lead whose edge measures 44cm, each bullet being 4cm in diameter.

[Watch Video Solution](#)

3. A measuring jar of internal diameter 10cm is partially filled with water. Four equal spherical balls of diameter 2cm each are dropped in it and they sink down in water completely. What will be the change in the level of water in the jar?

[Watch Video Solution](#)

4. A hemisphere of lead of radius 7 cm is cast into a right circular cone of height 49cm. Find

the radius of the base.

Watch Video Solution

5. The diameter of the moon is approximately one fourth of the diameter of the earth. What fraction of the volume of the earth is the volume of the moon?

Watch Video Solution

6. A cube of side 4cm contains a sphere touching its side. Find the volume of the gap in between.

[Watch Video Solution](#)

7. A capsule of medicine is in the shape of a sphere of diameter 3.5mm. How much medicine ($\in mm^3$) is needed to fill this capsule?

[Watch Video Solution](#)

8. A cube of side 4 cm contains a sphere touching its side . Find the gap in between them .

[Watch Video Solution](#)

9. The dome of a building is in the form of a hemisphere. Its radius is 63m. Find the cost of painting it at the rate of Rs. 2 per sq.m.

[Watch Video Solution](#)

10. Assuming the earth to be a sphere of radius 6370 km, how many square kilometres is area of the land, if three-fourth of the earth's surface is covered by water?

Watch Video Solution

11. A storage tank consists of a circular cylinder with a hemisphere adjoined on either end. If the external diameter of the cylinder be 1.4m

and its length be 8m, find the cost of painting it on the outside at the rate of Rs. 10 per m^2 .

[Watch Video Solution](#)

12. The diameter of the moon is approximately one fourth of the diameter of the earth. Find the ratio of their surface areas.

[Watch Video Solution](#)

13. The front compound wall of a house is decorated by wooden spheres of diameter 21 cm, placed on small supports as shown in Fig 13.32. Eight such spheres are used for this purpose, and are to be painted silver. Each support is a cylinder of radius 1.5cm and height 7cm and is painted black. Find the cost of paint required if silver paint cost 25 paise per cm^2 and black paint cost 5 paise per cm^2

Watch Video Solution

14. A hemispherical bowl is made of steel 0.5 cm thick. The inside radius of the bowl is 4cm.

find volume of steel

Watch Video Solution

15. The volume of the two spheres are in the ratio 64:27. Find the difference of their surface areas, if the sum of their radii is 7.

Watch Video Solution

16. A cylinder of radius 12cm contains water to a depth of 20cm. A spherical iron ball is dropped into the cylinder and thus the level of water is raised by 6.75 cm. Find the radius of the ball. $\left(use \pi = \frac{22}{7} \right)$

Watch Video Solution

17. A vessel in the form of a hemispherical bowl is full of water. The contents are emptied into a cylinder. The internal radii of the bowl

and cylinder are respectively 6cm and 4cm.

Find the height of water in the cylinder.

[Watch Video Solution](#)

18. A dome of a building is in the form of a hemisphere. From inside, it was white-washed at the cost of Rs. 498.96. If the cost of white-washing is Rs. 2.00 per square metre, find the inside surface area of the dome and volume of the air inside the dome.

[Watch Video Solution](#)

19. Twenty seven solid iron spheres, each of radius r and surface area S are melted to form a sphere with surface area S' . Find the radius r of the new sphere. ratio of S and S' .

Watch Video Solution

20. A wooden toy is in the form of a cone surmounted on a hemisphere. The diameter of the base of the cone is 6cm and its height is

4cm. Find the cost of painting the toy at the rate of Rs. 5 per 1000cm

[Watch Video Solution](#)

21. A toy is in the shape of a right circular cylinder with a hemisphere on one end and a cone on the other. The height and radius of the cylindrical part are 13cm and 5cm respectively. The radii of the hemispherical and conical parts are the same as that of the

cylindrical part. Calculate the surface area of the toy if height of the conical part is 12cm.

[Watch Video Solution](#)

22. Three solid spheres of iron whose diameters are 2cm, 12cm and 16cm, respectively, are melted into a single solid sphere. Find the radius of the solid sphere.

[Watch Video Solution](#)

23. How many spherical lead shots each 4.2 cm in diameter can be obtained from a rectangular solid of lead with dimensions 66cm, 42cm, 21cm. $\left(use \pi = \frac{22}{7} \right)$.

Watch Video Solution

24. A sphere of diameter 6cm is dropped in a right circular cylindrical vessel partly filled with water. The diameter of the cylindrical vessel is 12cm. If the sphere is completely submerged in

water, by how much will the level of water rise in the cylindrical vessel?

[Watch Video Solution](#)

25. A solid lead ball of radius 7cm was melted and then drawn into a wire of diameter 0.2cm. Find the length of the wire.

[Watch Video Solution](#)

26. A sphere, a cylinder and a cone are of the same radius and same height. Find the ratio of their curved surface.

Watch Video Solution

27. Find the surface area and total surface area of a hemisphere of radius 21cm.

Watch Video Solution

28. Find the surface area of a sphere of radius 7cm.

Watch Video Solution

29. The internal and external diameters of a hollow hemispherical vessel are 24cm and 25cm respectively. The cost to paint 1 cm^2 the surface is Rs. 0.05. Find the total cost to paint the vessel all over. $\left(\text{Use } \pi = \frac{22}{7} \right)$

Watch Video Solution

30. The internal and external diameters of a hollow hemi-spherical vessel are 24cm and 25cm respectively. The cost of paint one sq. cm of the surface is 7 paise. Find the total cost to paint the vessel all over. (ignore the area of edge).

Watch Video Solution

31. A right circular cylinder just encloses a sphere of radius r as shown in figure. Find the

i. surface area of the sphere ii curved surface area of the cylinder iii. ratio of the area obtained in (i) and (ii)

[Watch Video Solution](#)

32. Show that the surface area of a sphere is the same as that of the lateral surface of a right circular cylinder that just encloses the sphere.

[Watch Video Solution](#)

33. A cone, a hemisphere and a cylinder stand on equal bases and have the same height. Show that their volumes are in the ratio 1:2:3.

Watch Video Solution

34. The largest sphere is carved out of a cube of side 10.5 cm. Find the volume of the sphere.

Watch Video Solution

35. If the radius of a sphere is doubled, what is the ratio of the volume of the first sphere to that of the second sphere?

Watch Video Solution

36. A spherical ball of lead 3cm in diameter is melted and recast into three spherical balls. If the diameters of two balls be $\frac{3}{2}cm$ and 2cm, find the diameter of the third ball.

Watch Video Solution

37. Find the surface area of a sphere of radius 7cm.

Watch Video Solution

38. Find the total surface area of a hemisphere of radius 21cm .

A. 4158cm^2

B. 3500cm^2

C. 4000cm^2

D. None of above

Answer: A

Watch Video Solution

39. The radius of a spherical balloon increases from 7cm to 14cm as air is being pumped into it. Find the ratio of surface areas of the original balloon to the resulting new balloon.

Watch Video Solution

40. A sphere, a cylinder and a cone are of the same radius and same height. Find the ratio of their curved surface.

Watch Video Solution

41. Show that the surface area of a sphere is the same as that of the lateral surface of a right circular cylinder that just encloses the sphere.

Watch Video Solution

42. A right circular cylinder just encloses a sphere of radius r as shown in figure. Find the : surface area of the sphere curved surface area of the cylinder ratio of the area obtained in (i) and (ii)

Watch Video Solution

43. A hemispherical bowl is made of steel, 0.25 cm thick. The inner radius of the bowl is 5 cm. Find the outer curved surface area of the bowl.

[Watch Video Solution](#)

44. The internal and external diameters of a hollow hemispherical vessel are 24cm and 25cm respectively. The cost to paint 1cm^2 the surface is Rs. 0.05. Find the total cost to paint the vessel all over. $\left(use \pi = \frac{22}{7} \right)$

[Watch Video Solution](#)

45. The internal and external diameters of a hollow hemispherical vessel are 24cm and

25cm respectively. The cost to paint 1cm^2 the surface is Rs. 0.05. Find the total cost to paint the vessel all over. $\left(\text{use } \pi = \frac{22}{7}\right)$

[Watch Video Solution](#)

46. A storage tank consists of a circular cylinder with a hemisphere adjoined on either end. If the external diameter of the cylinder be 1.4m and its length be 8m, find the cost of painting it on the outside at the rate of Rs. 10 per m^2 .

[Watch Video Solution](#)

47. A toy is in the shape of a right circular cylinder with a hemisphere on one end and a cone on the other. The height and radius of the cylindrical part are 13cm and 5cm respectively. The radii of the hemispherical and conical parts are the same as that of the cylindrical part. Calculate the surface area of the toy if height of the conical part is 12cm.

[Watch Video Solution](#)

48. A wooden toy is in the form of a cone surmounted on a hemisphere. The diameter of the base of the cone is 5cm and its height is 4cm. Find the cost of painting the toy at the rate of Rs. 5 per 1000cm^2 .

Watch Video Solution

49. The diameter of a sphere is decreased by 25%. By what per cent does its curved surface area decrease?

[Watch Video Solution](#)

50. Find the surface area of a sphere of radius:

10.5 cm

(ii) 5.6 cm

(iii) 14 cm

[Watch Video Solution](#)

51. Find the surface area of a sphere of

diameter: (i) 14 cm (ii) 21 cm (iii) 3.5 m

[Watch Video Solution](#)

52. Find the total surface area of a hemisphere of radius 10 cm

Watch Video Solution

53. The surface area of a sphere is 5544 cm^2 , find its diameter.

Watch Video Solution

54. A hemispherical bowl made of brass has inner diameter 10.5cm. Find the cost of

tinplating it on the inside at the rate of Rs. 4 per 100 cm^2

[Watch Video Solution](#)

55. The dome of a building is in the form of a hemisphere. Its radius is 63dm. Find the cost of painting it at the rate of Rs. 2 per sq.m.

[Watch Video Solution](#)

56. Assuming the earth to be a sphere of radius 6370 km, how many square kilometres is area of the land, if three-fourth of the earth's surface is covered by water?

Watch Video Solution

57. A cylinder of same height and radius is placed on the top of a hemisphere. Find the curved surface area of the shape if the length of the shape by 7cm.

[Watch Video Solution](#)

58. A wooden toy is in the form of a cone surmounted on a hemisphere. The diameter of the base of the cone is 16cm and its height is 15cm. Find the cost of painting the toy at *Rs.7 per 100 cm²*.

[Watch Video Solution](#)

59. A storage tank consists of a circular cylinder with a hemisphere adjoined on either

end. If the external diameter of the cylinder be 1.4m and its length be 8m, find the cost of painting it on the outside at the rate of Rs. 10 per m^2 .

[Watch Video Solution](#)

60. The diameter of the moon is approximately one fourth of the diameter of the earth. Find the ratio of their surface areas.

[Watch Video Solution](#)

61. A hemispherical dome of a building needs to be painted (see Fig. 13.21). If the circumference of the base of the dome is 17.6 m, find the cost of painting it, given the cost of painting is Rs 5 per 100 cm^2

Watch Video Solution

62. The front compound wall of a house is decorated by wooden spheres of diameter 21 cm, placed on small supports as shown in Fig 13.32. Eight such spheres are used for this

purpose, and are to be painted silver. Each support is a cylinder of radius

[Watch Video Solution](#)

63. Find the volume of a sphere of radius 7cm.

[Watch Video Solution](#)

64. Find the volume of hemisphere of radius 3.5cm.

[Watch Video Solution](#)

65. A hemispherical bowl is made of steel 0.5 cm thick. The inside radius of the bowl is 4cm.

Watch Video Solution

66. A hemispherical bowl has inner diameter 11.2cm. Find the volume of milk it can hold.

Watch Video Solution

67. Find the volume of a sphere whose surface area is 154 cm^2

Watch Video Solution

68. The volume of the two spheres are in the ratio 64:27. Find the difference of their surface areas, if the sum of their radii is 7.

Watch Video Solution

69. Find the volume and the total surface area of a hemisphere of radius 3.5 cm.

$$\left(\text{Use } \pi = \frac{22}{7} \right)$$

Watch Video Solution

70. A solid sphere of radius 3cm is melted and then cast into small spherical balls each of diameter 0.6cm. Find the number of balls thus obtained.

Watch Video Solution

71. How many spherical bullets can be made out of a solid cube of lead whose edge measures 44 cm, each being 4 cm in diameter.

[Watch Video Solution](#)

72. How many spherical lead shots each 4.2 cm in diameter can be obtained from a rectangular solid of lead with dimensions 66cm, 42cm, 21cm. $\left(use \pi = \frac{22}{7} \right)$.

[Watch Video Solution](#)

73. Three solid spheres of iron whose diameters are 2cm, 12cm and 16cm, respectively, are melted into a single solid sphere. Find the radius of the solid sphere.

Watch Video Solution

74. A solid lead ball of radius 7cm was melted and then drawn into a wire of diameter 0.2cm. Find the length of the wire.

[Watch Video Solution](#)

75. A solid sphere of radius 1cm is melted to stretch into a wire of length 100 cm. Find the radius of the wire.

[Watch Video Solution](#)

76. A sphere of diameter 6cm is dropped in a right circular cylindrical vessel partly filled with water. The diameter of the cylindrical vessel is

12cm. If the sphere is completely submerged in water, by how much will the level of water rise in the cylindrical vessel?

[Watch Video Solution](#)

77. A hemispherical bowl of internal diameter 36cm contains a liquid. This liquid is to be filled in cylindrical bottles of radius 3cm and height 6cm. How many bottles are required to empty.

[Watch Video Solution](#)

78. The largest sphere is carved out of a cube of a side 7cm. Find the volume of the sphere.

Watch Video Solution

79. A hemisphere of lead of radius 8cm is cast into a right circular cone of base radius 6cm. Determine the height of the cone, correct to two places of decimal.

Watch Video Solution

80. A spherical cannonball 28 cm in diameter is melted and cast into a right circular cone mould, whose base is 35 cm in diameter. Find the height of the cone.

Watch Video Solution

81. A cylindrical container of radius 6 cm and height 15 cm is filled with ice-cream. The whole ice-cream has to be distributed to 10 children in equal cones with hemispherical tops. If the

height of the conical portion is four times the radius of its base, find the radius of the ice-cream cone.

[Watch Video Solution](#)

82. A solid wooden toy is in the shape of a right circular cone mounted on a hemisphere. If the radius of the hemisphere is 4.2 cm and the total height of the toy is 10.2 cm, find the volume of the wooden toy.

[Watch Video Solution](#)

83. Twenty seven solid iron spheres, each of radius r and surface area S are melted to form a sphere with surface area S' . Find the (i) radius r' of the new sphere, (ii) ratio of S and S' .

[Watch Video Solution](#)

84. Find the volume of a sphere whose radius is: 2cm (ii) 3.5cm (iii) 10.5 cm

[Watch Video Solution](#)

85. Find the volume of a sphere whose diameter is: 14cm (ii) 3.5 dm (iii) 2.1 m

Watch Video Solution

86. A hemispherical tank has inner radius of 2.8m. Find its capacity in litres.

Watch Video Solution

87. A hemispherical bowl is made of steel, 0.25 cm thick. The inner radius of the bowl is 5 cm. Find the outer curved surface area of the bowl.

Watch Video Solution

88. How many bullets can be made out of a cube of lead whose edge measures 22 cm, each bullet being 2 cm in diameter? (a) 1347 (b) 2541 (c) 2662 (d) 5324

Watch Video Solution

89. A shopkeeper has one laddoo of radius 5cm. With the same material, how many laddoos of radius 2.5cm can be made.

Watch Video Solution

90. A spherical ball of lead 3cm in diameter is melted and recast into three spherical balls. If the diameters of two balls be $\frac{3}{2}$ cm and 2cm, find the diameter of the third ball.

Watch Video Solution

91. A sphere of radius 5cm is immersed in water filled in a cylinder, the level of water rises $\frac{5}{3}$ cm. Find the radius of the cylinder.

[Watch Video Solution](#)

92. If the radius of a sphere is doubled, what is the ratio of the volume of the first sphere to that of the second sphere?

[Watch Video Solution](#)

93. A cone and a hemisphere have equal bases and equal volumes. The ratio of their heights is

Watch Video Solution

94. A vessel in the form of a hemispherical bowl is full of water. The contents are emptied into a cylinder. The internal radii of the bowl and cylinder are respectively 6cm and 4cm. Find the height of water in the cylinder.

[Watch Video Solution](#)

95. A cylinder whose height is two thirds of its diameter, has the same volume as a sphere of radius 4cm. Calculate the radius of the base of the cylinder.

[Watch Video Solution](#)

96. A vessel in the form of a hemispherical bowl is full of water. The contents are emptied

into a cylinder. The internal radii of the bowl and cylinder are respectively 6cm and 4cm.

Find the height of water in the cylinder.

[Watch Video Solution](#)

97. A cylindrical tub of radius 16cm contains water to a depth of 30cm. A spherical iron ball is dropped into the tub and thus level of water is raised by 9cm. What is the radius of the ball?

[Watch Video Solution](#)

98. A cylinder of radius 12cm contains water to a depth of 20cm. A spherical iron ball is dropped into the cylinder and thus the level of water is raised by 6.75 cm. Find the radius of the ball. $\left(use \pi = \frac{22}{7} \right)$

Watch Video Solution

99. The diameter of a copper sphere is 18 cm. The sphere is melted and is drawn into a long

wire of uniform circular cross-section. If the length of the wire is 108 m, find its diameter.

[Watch Video Solution](#)

100. A cylindrical jar of radius 6 cm contains oil. Iron spheres each of radius 1.5 cm are immersed in the oil. How many spheres are necessary to raise the level of the oil by two centimetres?

[Watch Video Solution](#)

101. A measuring jar of internal diameter 10cm is partially filled with water. Four equal spherical balls of diameter 2cm each are dropped in it and they sink down in water completely. What will be the change in the level of water in the jar?

Watch Video Solution

102. The diameter of a sphere is 6cm. It is melted and drawn into a wire of diameter 0.2 cm. Find the length of the wire.

[Watch Video Solution](#)

103. The radius of the internal and external surface of a hollow spherical shell are 3cm and 5cm respectively. If it is melted and recast into a solid cylinder of height $2\frac{2}{3}cm$. Find the diameter of the cylinder.

[Watch Video Solution](#)

104. A hemisphere of lead of radius 7 cm is cast into a right circular cone of height 49cm. Find the radius of the base.

[Watch Video Solution](#)

105. A hollow sphere of internal and external radii 2 cm and 4 cm respectively is melted into a cone of base radius 4 cm. Find the height and slant height of the cone.

[Watch Video Solution](#)

106. A metallic sphere of radius 10.5 cm is melted and recast into small right circular cones, each of base radius 3.5 cm and height 3 cm. The number of cones so formed is (a) 105 (b) 113 (c) 126 (d) 135

Watch Video Solution

107. A cone and a hemisphere have equal bases and equal volumes. Find the ratio of their heights.

[Watch Video Solution](#)

108. A cone, a hemisphere and a cylinder stand on equal bases and have the same height. Show that their volumes are in the ratio 1:2:3.

[Watch Video Solution](#)

109. A cylindrical tub of radius 12 cm contains water to a depth of 20 cm. A spherical ball is dropped into the tub and the level of the

water is raised by 6.75 cm. Find the radius of the ball.

[Watch Video Solution](#)

110. The largest sphere is carved out of a cube of side 10.5 cm. Find the volume of the sphere.

[Watch Video Solution](#)

111. A sphere, a cylinder and a cone have the same radius and same height. Find the ratio of

their volumes.

[Watch Video Solution](#)

112. The diameter of a sphere is decreased by 25%. By what percent its curved surface area decrease?

[Watch Video Solution](#)

113. A hemispherical tank is made up of an iron sheet 1 cm thick. If the inner radius is 1 m, then

find the volume of the iron used to make the tank

[Watch Video Solution](#)

114. A capsule of medicine is in the shape of a sphere of diameter 3.5 mm. How much Medicine ($\in mm^3$) is needed to fill this capsule?

[Watch Video Solution](#)

115. The diameter of the moon is approximately one-fourth of the diameter of the earth. What fraction of the volume of the earth is the volume of the moon?

Watch Video Solution

116. Find the surface area of a sphere of radius 14cm.

Watch Video Solution

117. Find the total surface area of a hemisphere of radius 10 cm

Watch Video Solution

118. Find the radius of a sphere whose surface area is 154 cm^2

Watch Video Solution

119. The hollow sphere, in which the circus motorcyclist performs his stunts, has a diameter of 7 m. Find the area available to the motorcyclist for riding.

Watch Video Solution

120. Find the volume of a sphere whose surface area is 154 cm^2

Watch Video Solution

121. How many spherical bullets can be made out of a solid cube of lead whose edge measures 44 cm, each bullet being 4 cm in diameter?

Watch Video Solution

122. If a sphere of radius $2r$ has the same volume as that of a cone with circular base of radius r , then find the height of the cone.

Watch Video Solution

123. A metallic spherical shell of internal and external diameters 4 cm and 8 cm respectively is melted and recast into the form a cone of base diameter 8 cm The height of the cone is

Watch Video Solution

124. The surface area of a sphere of radius 5 cm is five times the curved surface area of a cone of radius 4 cm. Find the height and

volume (correct to two decimal places) of the cone.

[Watch Video Solution](#)

125. In a sphere is inscribed in a cube, find the ratio of the volume of cube to the volume of the sphere.

[Watch Video Solution](#)

126. In a sphere the number of faces is 1

(b) 2 (c) 3 (d) 4

Watch Video Solution

127. The total surface area of a hemisphere of

radius r is πr^2 (b) $2\pi r^2$ (c) $3\pi r^2$ (d) $4\pi r^2$

Watch Video Solution

128. The ratio of the total surface area of a sphere and a hemisphere of same radius is

A. 2:1

B. 3:2

C. 4:1

D. 4:3

Answer: D

Watch Video Solution

129. A sphere and a cube are of the same height. The ratio of their volumes is 3:4

(b) 21:11 (c) 4:3 (d) 11:21

Watch Video Solution

130. The largest sphere is cut off from a cube of side 6cm. The volume of the sphere will be

$27\pi \text{ cm}^3$ (b) $36\pi \text{ cm}^3$ (c) $108\pi \text{ cm}^3$ (d)
 $12\pi \text{ cm}^3$

Watch Video Solution

131. A cylindrical rod whose height is 8 times of its radius is melted and recast into spherical balls of same radius. The number of the balls will be

[Watch Video Solution](#)

132. If the ratio of volumes of two spheres is 1:8, then the ratio of their surface area is

1:2 (b) 1:4 (c) 1:8 (d) 1:16

[Watch Video Solution](#)

133. If the surface area of a sphere is $144\pi m^2$, then its volume ($\in m^3$) is 288π (b) 316π (c) 300π (d) 188π

Watch Video Solution

134. If a solid sphere of radius 10 cm is moulded into 8 spherical solid balls of equal radius, then the surface area of each ball is $50\pi cm^2$ (b) $60\pi cm^2$ (c) $75\pi cm^2$ (d) $100\pi cm^2$

[Watch Video Solution](#)

135. The ratio between the volume of a sphere and volume of a circumscribing right circular cylinder is 2:1 (b) 1:1 (c) 2:3 (d)

1:2

[Watch Video Solution](#)

136. The ratio of the volume of a cube to that of sphere so that the sphere will fit inside the

cube is

A. $4 : \pi$

B. $4 : 3\pi$

C. $6 : \pi$

D. $2 : \pi$

Answer: C

Watch Video Solution

137. A solid sphere of radius r is melted and cast into the shape of a solid cone of height r , the radius of the base of the cone is

- A. r
- B. $2r$
- C. $3r$
- D. $4r$

Answer: B

Watch Video Solution

138. A sphere is placed inside a right circular cylinder so as to touch the top, base and lateral surface of the cylinder. If the radius of the sphere is r , then the volume of the cylinder is $4\pi r^3$ (b) $\frac{8}{3}\pi r^3$ (c) $2\pi r^3$ (d) $8\pi r^3$

Watch Video Solution

139. A cone and a hemisphere have equal bases and equal volumes the ratio of their heights is 1:2 (b) 2:1 (c) 4:1 (d) $\sqrt{2} : 1$

[Watch Video Solution](#)

140. A cone, a hemisphere and a cylinder stand on equal bases and have the same height. Show that their volumes are in the ratio 1:2:3.

[Watch Video Solution](#)
