The advertisement features two smartphones on an orange background. The left phone displays a math problem: "If the line segment joining the point A(a,b) and B(c,d) subtends an angle  $\theta$  at the origin. Prove that  $\cos \theta = \frac{ac+bd}{\sqrt{(a^2+b^2)(c^2+d^2)}}$ ". Below it are several other math problems involving lines and angles. A green arrow points from this phone to the right phone. The right phone shows a search interface with the text "Type your question" and "find the equation of tangent a". Below this, several search results are visible, including "Find the equation of tangent to the curve 'x=a(th...)", "Find the equation of tangent to the curve 'x=a(th...", "Find the equation of tangent to the curve 'y=sin^(-1...", "If '3x+y=0' is a tangent to a circle whose center is...", and "Find the equation of tangent to 'y=ln(x^2)(x^3)(...". A green arrow points from the right phone to a dashed box containing the text "Get Solutions as YOU TYPE". At the bottom left of the advertisement, a dashed box contains the text "Click Here to TYPE & ASK". The Doubtnut logo is in the bottom right corner.
